

Sean Theater Lobby Crowd.

Capt. William Schoemaker of the detective bureau and fifteen men stationed themselves in the Palace theater lobby, mingling with the crowd, during the game. Nathan ("Bunk") Goldberg, dressed as a bootlegger and racketeer, came along. He waved two fifth row tickets happily and ushered four coated girl through the throng. "Come along, Bunk," said one of the detectives. "That nice white shirt doesn't mean a thing." And Goldberg relinquished his tickets and his girl and went along.

Ben Sopkin, who looked more like a

Showup of Prisoners Today.
At the detective bureau, where the more important suspects were taken, confusion reigned as bondsmen rushed to attempt to free some of these

Leut. John McGinnis and a squad on the detective bureau walked into the Sunset café, 315 East 35th street, and arrested Ralph and Frank Buglio, others, who own the place. In almost every raid made the police used revolvers on some of the men taken into custody. It was predicted that more than 300 weapons would be seized before morning.

Reorg

The annual salary of one patrolman, his first year, is \$2,140. The sum of \$2,215,219 which the nickel tax cuts represents, therefore, would pay for 1,039 patrolmen for a full year or more than 1,000 for the remainder of 1929. In other words, if the council would sacrifice its plan to cut the tax rate, it would keep it unchanged it could give 1,000 more patrolmen. The council commissioner Russell, 1,000 more patrolmen.

Two major obstacles to this proposal present themselves in the minds of the aldermen. First, it would be necessary for them to forfeit at some consider first class political

GUATEMALA PUTS REBELS TO DEATH, CAPTURES CITIES

Planes Bomb Revolting
Troops; Peace Near.

BULLETIN.
Washington, D. C., Jan. 20.—(AP)—Minister Recinos of Guatemala tonight that advice from his government reported the government forces had entirely occupied Mazatenango. His government's information indicated the revolution would be suppressed in a few days. The minister also denied the reports that five western department of Guatemala were in revolt.

BY BEN ZWIG.
[Chicago Tribune Press Service.]
GUATEMALA CITY, Guatemala, Jan. 20.—The departments of Retalhuleu, Suchitepéquez and Quetzaltenango are still in revolt. Government troops under Gen. Juan Padilla are reported to have retaken Mazatenango at 9 a. m. The entire republic is in a state of war. More troops are leaving the capital for the revolt area. All automobiles and vehicles have been commandeered by the government for use in transporting troops, munitions and food. Over 3,000 government troops are in the field.
The city of Quetzaltenango, in revolt under Col. Canales, was given until 5 a. m. Monday to surrender unconditionally, otherwise government artillery and airplanes will shell the city.

Planes Bomb Rebels.
GUATEMALA CITY, Jan. 20.—(AP)—Government forces today recaptured parts of two cities seized by the revolutionists and were severely bombarded by the port of Mazatenango still held by the rebels.
Airplanes using bombs and machine guns in cooperation with the infantry yesterday were said to have demolished the insurgents, many of whom were seen to fall. These combined forces recaptured much of Mazatenango, including the railway station, yesterday and early this morning subjected the remainder of the city to a violent artillery attack.
In the city of Salama the rebels in the northern part handed over their arms after their leaders had fled before the advance of loyal troops, which recaptured the section without resistance. The cities of Quetzaltenango and Totonicapán are reported to have surrendered to the rebel leader Mariano Canales, who has released the three under his command.
The government dominates the situation and the republic is rapidly returning to normal.

Several Leaders Slain.
GUATEMALA CITY, Jan. 20.—(U. P.)—Col. Eugenio Contreras, one of the principal leaders of the revolt, was killed in the fighting at Mazatenango. It was announced that Col. Benigno Leonardo, Capt. Federico de la Cruz, Capt. Reginaldo Galeano and Capt. Wenceslao Galeano—all rebel leaders—had been court-martialed and executed by a firing squad today.
The rebels plundered Retalhuleu and failed to get sufficient arms and munitions to withstand the federal attack, according to advice received here. Five thousand federal soldiers under Gen. Markarito Ariza were marching on Quetzaltenango tonight, ready to wipe out the last stand of revolutionaries.

REBUKES PARISIANS

Elsie Janis calls down Paris audience for jeering at Moulin Rouge spectacle. Most of the headlines were Americans, which the French seemed to resent. After Miss Janis had rebuked them they subsided and applauded her act.

[Strauss-Peterson Photo.]

RUBBER CLUBS OF LATVIAN POLICE END REDS' RIOT

[Chicago Tribune Press Service.]
RIGA, Latvia, Jan. 20.—The Latvian police, using their new rubber riot clubs, today dispelled a demonstration by unemployed communists. Thirty were arrested, including a deputy of parliament.

Both Socialists and communists requested permission from the police to hold parades. A permit was granted to the Socialists and refused to the communists, who during the Socialist demonstration attacked the police along the route.

The Socialists held a mass meeting at their headquarters. The communists stormed it, beating three Socialist deputies, including former Foreign Minister Cielens.
Ten thousand marched in the parade, although local physicians advised the authorities not to permit the parade because of the influenza epidemic. Ten thousand cases have been reported in the last week.

**King George Continues
Gain; Use Rays Again.**
[Chicago Tribune Press Service.]
LONDON, Jan. 20.—No bulletin was issued on King George's health today, but it was stated that his progress is maintained. There was a short conference between Lord Dawson of Penn and Sir Stanley Hewett, following which the ray therapy treatment was applied.

What Do You Know about HYDROX?

Boys! Girls! Win Ice Cream Free for a Year!

You don't have to be a "shark" at Arithmetic or Geography. You don't have to know a lot about History. All you have to do is to tell us what you know about Hydrox. And your high marks will be good for high dishes of Hydrox Ice Cream.

7,000 Dishes of Hydrox Ice Cream FREE

All in all, Hydrox is giving away 760 prizes every week. First prizes are good for Hydrox Ice Cream Free every week for a year. Second prizes, every week for six months. Third prizes, every week for three months. And in addition, hundreds of other prizes.

Every boy and girl from Kindergarten to High is eligible. Papers are graded according to grade. Teachers are judges. Winners announced every Saturday. Ask your nearest Hydrox Agent for a set of the contest rules and start writing your paper today.

2 YOUNG COUPLES KILLED AS TRAIN DEMOLISHES AUTO

Meet Death on Dark, Unguarded Crossing.

(Pictures on back page.)

Two young couples in a small coupe, so crowded in the seat as to interfere with the driver's field of view, were crushed to death an hour before daybreak yesterday in a collision with a fast Pennsylvania mail train at 154th street, Calumet City, on the south boundary of Cook county.

A wooden cross arm post, whose printed warning was unlighted and hardly discernible in the darkness, formed the only protective device at the crossing. A motorist met death there in the night two weeks ago.

List of Victims.

Yesterday's victims were:
Carl Wright, 20 years old, 743 West 73d street, an automobile mechanic, and the owner and driver of the coupe.

Miss Rose Moran, 21 years old, 6413 South Wood street, a telephone operator at the Westworth exchange.

James Lorenz, 20 years old, 2640 South Loomis street, a clerk for the Chicago and Eastern Illinois railroad.

Miss Grace Walker, 18 years old, 275 Pine street, Hammond, Ind., a salesgirl, who was Lorenz's fiancée.

Lorenz had been host to ten couples at a gay birthday party at his home. There has been bridge and dancing until long after midnight and about 4 a. m. the couples started home.

Wright agreed to drive Miss Walker home and Lorenz went along for company. Wright took the wheel, Miss Moran and Lorenz sat beside him, and Miss Walker on her fiancé's lap.

Engineer Sounds Whistle.

The coupe was traveling east on 154th street at 5:20 a. m. The train, north bound from Springfield, O., and due in Chicago at 5:45 a. m., was traveling on schedule. The headlight beam was probably invisible to the youth at the wheel with the girl's form blocking the window at his right.

S. J. Barney, the engineer, pulled his whistle cord 500 feet before the crossing, and P. G. Henry had the bell clanging, according to their reports. But an instant before the train hurtled across 154th street the coupe flashed into view and was caught squarely on the locomotive pilot.

When the train crew fled away the wreckage Lorenz, Wright, Miss Moran and Lorenz were dead. Miss Walker was still breathing, but unconscious.

A police ambulance, summoned by a trainman, took her to St. Margaret's hospital at Hammond, where she died. These four deaths and that of Joseph Podowski, 1687 Crossing street, who succumbed at the Palatine hospital at Palatine, Ill., of injuries sustained in an automobile accident, raised the 1929 motor toll in Cook county to 41.

Seven occupants of an automobile

HARSH'S ATTORNEYS PREPARE MOTION FOR NEW TRIAL IN KILLING

Atlanta, Ga., Jan. 20.—(AP)—Attorneys for George F. Harsh, condemned slayer of Willard Smith, a drug clerk, in a holdup, today were preparing a motion for a new trial while the former colleague sat in jail, apparently indifferent to his fate.

The former Oglethorpe university student's only emotion since his arrest shortly after the holdup last Oct. 16 came yesterday when Judge E. B. Thomas pronounced sentence of death in the electric chair and set date of execution for March 15. Then Harsh, erect, head slightly bowed, was very pale, and facial muscles twitched slightly as he clenched his jaws.

which skidded into a Cottage Grove avenue street car at 34th street last night were injured.

The injured are: Michael Dove, 39 years old, 9112 Doherty avenue; Mrs. Julia Dove, his wife; Steve Santos, 40 years old, 657 East 92d place; Mrs. Mary Santos, his wife; Mary Santos, 11 years old, their daughter; Mrs. Mary Demott, 31 years old, 9123 Kenneth avenue, and Mrs. Anna Brasa, 30 years old, 9123 Kenneth avenue.

OPERA DIRECTOR IS DECORATED BY ITALIAN CONSUL

(Picture on back page.)
The decoration of the Order of the Crown of Italy was conferred last night upon Herbert M. Johnson, director of the Chicago Civic Opera company, by Giuseppe Castruccio, Italian consul general of Chicago, on behalf of King Victor Emmanuel. Sig. Castruccio, in presenting the decoration, omitted the customary eulogium, but Romo Rains, one of 100 members of the company who witnessed the ceremony, impulsively stood up and pressed a congratulatory kiss on the director's cheek.

OFFER BRANDON STATE WELFARE POST, REPORT

Rodney H. Brandon of Lockwood Hall, Balaia, Ill., executive secretary of the Loyal Order of Moose, has been offered the post of director of the Illinois department of public welfare by Gov. Louis L. Emmerson. It was reported last night. Mr. Brandon was a leader in the primary campaign for Gov. Emmerson. Before leaving for Springfield yesterday, he told friends at Mooseheart of the offer and said he was inclined to accept it.

LOESCH TO CALL ELMORE FIRST IN CANAL FUND QUIZ

Special Jury to Take Up
Board Finances Today.

BY OSCAR HEWITT.

Howard W. Elmore, president of the sanitary district, will be one of the first witnesses to appear today in the special grand jury investigation of the district, according to Frank J. Loesch, first assistant state's attorney. The prosecutor said yesterday that he plans to have Mr. Elmore and one other trustee start testifying this afternoon.

"I think we should start with the present jury and get as much reliable information as Mr. Elmore has been able to gather since he has been in office," said Mr. Loesch. "Thus we will have a broad outline presented for a thorough investigation. The present jury has only one more week to run and a complete investigation in that time is impracticable. Mr. Elmore has told me that we can have anything in the files of the district and that all records are open to us. I shall ask for any completed audits which have been made."

Pay Rolls Again in Spotlight.
This announced grand jury investigation and the rumored inquiry by the state legislature into the activities of certain lawmakers who were on the district's salary lists draws attention again to the enormous pay rolls of the district for the election year of 1928. Although no official figures are available, The Tribune is able to estimate from the records of the district's pay rolls last year. The aggregate was a minimum of \$10,139,799. This is \$3,897,719 more than the total of all pay rolls in 1927. It is nearly four and a half times the 1921 pay roll. It is more than two and a third times the present 1929 pay roll rate. The district's salary list for the first

AL SMITH AND WIFE LEAVE WITH PARTY OF FRIENDS FOR FLORIDA

New York, Jan. 20.—(AP)—Former Gov. Alfred E. Smith left today for a winter vacation in Florida. Accompanying him were Mrs. Smith and Mr. and Mrs. William F. Kenny, close friends of the Smith family. They traveled in Mr. Kenny's private car attached to the Havana Special, which left the Pennsylvania station at 3:29 p. m. John J. Raskob, Democratic national chairman, was to join the party at Wilmington, Del.

The former governor said that he was "getting away from politics" and had no idea of seeing southern political leaders while on his vacation. He and his party planned to spend six weeks with Carl Epp at Sarasota, Fla.

The observation platform of the private car was banked with flowers. Among the 400 persons who were at the station were Mr. and Mrs. Alfred E. Smith Jr., Mr. and Mrs. Francis Quillman, Mr. and Mrs. Walter Smith and Mr. and Mrs. Arthur Smith. It was said that the private car would be returned this week to take the rest of the Smith and Raskob families to Sarasota.

15 days of this month is at the rate of \$352,000 a month, while the pay rolls last year averaged \$344,983 per month, although in the month before the November election the pay rollers collected more than \$1,000,000.

Salary Lists Compared.
A comparison of the estimated 1929 pay roll with like expenditures for several previous years is given in the following table:

Year	Pay rolls
1928	\$10,139,799
1927	6,332,080
1926	5,032,983
1925	4,651,232
1924	2,968,902
1923	3,612,318
1922	2,782,339

Projecting the 1929 pay roll on the basis of unpaid salary obligations during the first half of this month, this year's total will be \$4,324,000. But Mr. Elmore has said that there are still unneeded employees on the roll. One of his illustrations is the spending of \$3,000 a month for the care of two boats which he thinks two watch-

men could adequately care for.

Another illustration is the three sets of auditors which Mr. Elmore says the district has employed. But the president does not appear to be fully informed, because the printed official board proceedings show six audit services employed last year.

Six Auditing Concerns Paid.
Between Jan. 1 and Oct. 18 the board paid \$18,145 for auditing services to S. R. Arvey & Co., \$13,000 to Edward Gore & Co., \$20,992 to the William F. Mason Jr. company, \$13,382 to the Public Audit company, \$1,250 to another company, and \$494 to still another auditing concern. It is rumored that the auditing service cost was largely increased during the last six weeks of last year.

Yet, after all this auditing, in addition to the board's own large staff of accountants, clerks, and bookkeepers, the trustees assert they do not know whether approximately \$4,000,000, which is in the district treasury, is bond money, segregated by law (theoretically) for permanent improvement, or if current revenue which can be used for any corporate purpose, or a combination of the two.

The present regime has been running the affairs of the district since the first week in December. It is stated that President Elmore dispensed with the services of the Mason auditing company last week, but there has been no announcement that any of the other five concerns have been laid off. On Saturday it was announced that the board still retains the services of the Gore and Arvey companies.

Dilemma of the \$4,000,000.
The chief worry of the trustees at present appears to be the problem of what is bond money and what current receipts of the \$4,000,000 in the district's treasury. That is the reason they have stopped payment of all bills and salaries until a decision is made.

Walter Beba, attorney for the district, has asserted that it is illegal to use bond money for current expenses. In addition to desiring to meet their pay rolls and bills, the trustees do not wish to overstep the law. They also would like to make a favorable impression on state legislators, many of

BETTER ENGLISH

A Wonderful Course
Tonight at 6:15

Lyon & Healy Concert Hall
Tel. Rogers Park 0234

whom are interested in damages to farm land of constituents for which it is claimed the district is responsible.

A total of \$3,000,000 in bonds has been issued and sold to pay for these and damages. Of this total, \$1,000,000 in bonds was passed by the board on Aug. 6, 1925, another \$1,000,000 on May 5, 1927, and the third \$1,000,000 on April 12, 1928. The first bond ordinance said that the money was to be spent "for the purpose of the payment of lawful claims for damages against the sanitary district of Chicago by reason of the overflow of water of the Des Plaines, Kankakee, Calumet, and Illinois rivers."

The second two issues were "for the purpose of paying lawful claims against the sanitary district for damages to land or for damage to or destruction of other property where such damage or destruction was caused by the sanitary district."

Damages Payments a Mystery.
The downstate farmers haven't received \$3,000,000 in damages. How much they have received is a question. It is reported that one fiscal statement of the district shows less

than \$450,000 paid for damages, while another showed about \$1,400,000 paid for damages and lawyers' fees. It is said that the remainder, whatever it is, of the \$3,000,000 has been paid out to investigators and for other like services.

The estimated \$10,139,799 spent last year on pay rolls is several million dollars in excess of the aggregate appropriated for specific pay roll purposes. But in order to have some fund against which to charge pay rolls in excess of the appropriations the account "G-13" was utilized. This appropriation account was for \$250,000 and the appropriation ordinance said that that \$250,000 was taken "out of the bond issue of \$1,000,000 passed May 5, 1927," referring specifically to the second \$1,000,000 obtained from bonds with which to pay land damages.

It is understood that later in the year certain transfers were made in appropriation, so that this fund will not now show as the source of pay for certain employees on the rolls immediately before the November election.

It is also reported that the trust-

tees are wrestling with the problem of the payment of about \$3,500,000 in the lake level controversy. Some of the trustees assert that this money was paid out of current receipts and should have been paid out of bond issue money because the work performed was preliminary to construction work to raise the level of the great lakes. E. E. Gore in his report on sanitary district finances to the Association of Commerce for the period between April, 1923, and June 30, 1925, summarized the expenditures on lake levels in that period as follows:

Salaries of special engineers and attorneys \$322,218
Traveling expense, carfare, meals, 247,787
Entertainment, etc. 140,084
Publicity and advertising 70,837
Miscellaneous general expense 624,876
Pay roll 624,876

Two Ways of Figuring.
Just how this lake level expense enters into the difficulties of the trustees in deciding how much of the \$4,000,000 in the treasury is bond money and current receipts has not been explained officially. But it is rumored that some of the trustees engineers of the country and several lawyers with national reputations. Regarding the entertaining item, the Gore report says:

"As previously stated, we have not

attempted to prepare a list disclosing the parties in respect of whom the foregoing payments for traveling expenses and entertaining were made, as in many instances the payments were made direct to hotels and railway companies. It may be stated, however, that these charges represent expenditures made in connection with the expense of special attorneys and various investigators, entertainment of public officials, and trips to Washington by trustees."

Regarding the \$424,376 pay roll expense, the Gore report shows that \$462,303 was for the services of investigators.

SHIP HITS REEF;
SAVE ALL ABOARDRush Tug to Pull Vessel
Off Bahama Shoal.

(By Wireless.)

ON BOARD THE S. S. PAN-AMERICA, Jan. 20.—[Special.]—The Dollar Steamship Line President Garfield, bound on a world cruise with 90 passengers, ran aground early today on Matanilla reef at the northern end of the Bahama islands group.

Tonight all of those on board are safe on the Munson liner Pan-America, which answered the SOS sent by Capt. Quinn of the President Garfield. The call was sent out soon after 7 a. m. when the ship struck the reef, which is 65 miles northeast of Palm Beach.

Goes Beyond Jupiter Light.
Capt. Quinn, after getting his bearings from Jupiter light, discovered that he had gone beyond that small buoy. He turned the ship sharply and it promptly grounded. Then at 7:25 he ordered the SOS sent out.

The Pan-America's wireless picked up this first call sent out by the vessel in distress. At that time being 175 miles from Matanilla reef, Capt. George Rose immediately turned his ship to the rescue. It sped along at 30 knots an hour for 8 hours.

Before the Pan-America arrived on the scene of the President Garfield's misadventure by wireless with the officers of the stranded vessel, asked that all the passengers and their baggage be put into the Garfield's lifeboats in preparation for transfer to the Pan-America.

Like Long, Uneven Snake.
At 4:45 p. m. the Pan-America was within sight of the grounded

HIS BOOK TO APPEAR THIS WEEK

Former Kaiser Wilhelm of Germany, who is putting finishing touches on work which he will complete by Jan. 27, his birthday.
(Associated Press Photo.)

ship, standing silent and forlorn. Moving toward the Pan-America over the sea like a long, uneven snake, were the lifeboats with their passengers. Capt. Quinn had followed the request of Capt. Rose and all his passengers were safe.

When the Pan-America came nearer one of her motor boats was lowered and it chugged out to round up the straggling lifeboats and bring them to the side of the rescuing ship. Then every one was transferred to the Pan-America. The entire operation, because of excellent seamanship by officers and men, required only 55 minutes.

Capt. Quinn said the President Gar-

field could be safely floated unless a sudden storm should come up and prevent the removal of its cargo. A salvage tug from Jacksonville is on its way and is scheduled to arrive near Matanilla reef early tomorrow.

EX-KAISER SAYS
WILSON MISLED
GERMAN PEOPLEWrites Book on 70 Years
of Power and Exile.

BY SIGRID SCHULTZ.

(Chicago Tribune Press Service.)
(Copyright, 1929: By The Chicago Tribune.)

BERLIN, Jan. 19.—The man who once ruled 60,000,000 Germans, commanded one of the strongest armies in the world, lived at the pinnacle of his power as Kaiser Wilhelm Hohenzollern, and now is in exile at Doorn, has written down the thoughts and lessons he has learned in 70 years of his life. They will appear in a book this week.

Important passages of the book, directed by the Imperial septuagenarian to his family, his friends, and his people, were obtained today.

To the people who dethroned him the former monarch says: "Only the principle of protection of work and the individual's freedom to work as much as he can and wants to can save Prussia and Germany. Protection for the man willing to work—that is what the reign of the Hohenzollerns gave the Prussians, and that is the only true liberty."

Recalls Family Motto.
To his family he recalls: "Fearless and true—that was the motto of my father and grandfather. May it always remain engraved in the

hearts and minds of the members of my house and our people. Without these two qualities our German nation will perish."

The former kaiser's book, which is dedicated to his wife, is a strangely mellow book compared with his previous utterances.
Only in the foreword does he show some impatience, saying "the Hohenzollern princes are humans, like all others." But immediately he finds a distinguishing feature for them, even in the most dim middle ages. It was "their deeply rooted religious fervor which made them feel directly responsible to God for their deeds and plans."

Little Bitterness Shown.

There is surprisingly little bitterness in the former kaiser's book toward the "new times" or his former enemies.

Only the late President Wilson is not included in the new mellowness. Wilhelm does not call him President, but "Professor" Wilson, because, as a friend of his pointed out, he does not want to identify the American people with the war President. He mentions the late President when speaking of the thirty years' war, pointing out that the Germans are the only nation in the world ready to battle until grim death for the sake of an idea, as they fought the thirty years' war for religious principles.

Charges Deception by Wilson.
"It was only by placing the idea of the thought [self-determination and the fourteen points] on the world throne that Prof. Wilson succeeded in stirring the Germans to their depths and inflamed them with enthusiasm," the former kaiser says.

"Afterwards, when the Germans were won over to the idea and when they had given up all means of self-defense, the great thought was dropped and suddenly turned into brutal power. Then those who had been bribed and cheated by the idea were powerless."

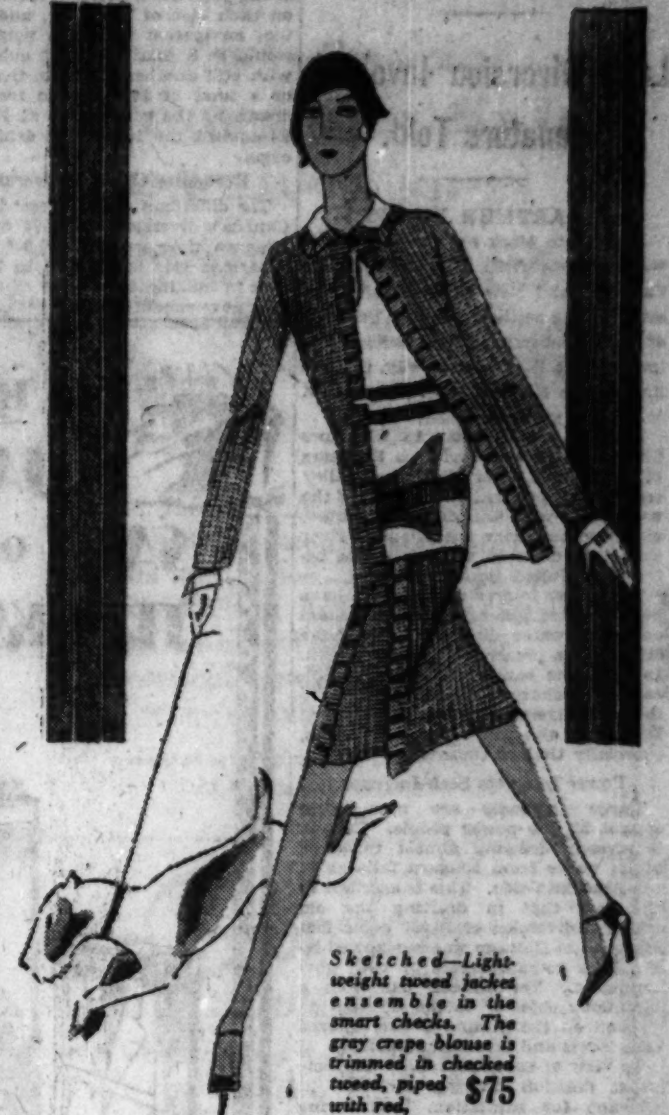

Cites Early U. S. Treaty.
Wilhelm mentions President Wilson again when speaking of Frederick the

Great, one of whose most important actions was to "recognize the United States of America and support their struggle for independence by sending over his personal aid de camp, Baron Steuben, to assist them in their battles. After the recognition of the government union Frederick signed a treaty of peace, friendship and trade with Washington. In 1871 this same treaty was taken over by the newly founded German reich. It contained a clause on the inviolability of private property of the enemy in war times. Without notice Prof. Wilson broke this pact and seized German private property. It is up to his successors to atone for this violation of American national honor in full."

MOVE TO BLOCK NIAGARA POWER GRANT TO CANADA

Lake Diversion Involved,
Senators Told.

BY ARTHUR EVANS.

A move to block an increase in the water drawn from Niagara falls by Canadian and New York power interests pending settlement of the question of water diversion from Lake Michigan for the Illinois waterway, the last link in the lake-to-gulf route, was set in motion yesterday.

Letters were sent to Senators Charles S. Deneen and Otis F. Glenn of Illinois and other Mississippi valley senators urging that ratification of the new treaty with Canada on withdrawal of water from the Niagara river should be deferred when it comes before the United States senate.

The power interests at Niagara have been counted among the chief antagonists of water diversion from Lake Michigan to preserve Chicago's health. In fact, the sanitary district of Chicago has charged that opposition to the lake diversion has been fomented largely by the water power interests, especially that of Ontario.

Power interests seek increase. Large increases are now being sought by the power people. Canada is already drawing almost twice as much water from Niagara falls as is the American side. This is ascribed to the fact that in drafting the old treaty a diversion of 10,000 cubic feet a second at Chicago was recognized by the high commissioners of both governments. Yet Canada has been a vigorous objector to the Chicago diversion on the ground it has lowered lake levels and injured navigation.

In view of the recent U. S. Supreme court decision denying diversion at Chicago for sanitation, but leaving open the question of diversion for waterway navigation, the argument presented to the senators at Washington is that all the water withdrawal questions should be lumped together.

The new treaty, which was signed at Ottawa Jan. 2 by Premier Mackenzie King of Canada and William Phillips, United States minister at Ottawa, authorizes a further diversion for power purposes of 20,000 cubic feet per second from the Niagara river. It is evenly divided. The Ontario hydro-electric commission gets 10,000 cubic feet and the Niagara Falls Power company of Niagara Falls, N. Y., gets 10,000. Remedial works to preserve Niagara falls, to cost an estimated \$1,750,000, as worked out by the special international Niagara board a year ago, are embodied in the treaty. The proposed new power diversions of 20,000 cubic feet per second are to be allowed for only six months in the year, during the winter or non-tourist season, between Oct. 1 and March 31. It is a forerunner of another diversion treaty authorizing still another 20,000 cubic feet to be withdrawn. In all, a total of 40,000 cubic feet for the power interests is involved as against

the 10,000 which Chicago has been denied for sanitation. The treaty, of course, becomes effective only after ratification.

At present, under the treaty of May, 1910, Canada has a diversion of 30,000 cubic feet from the Niagara river for power, and the American side of the falls has 20,000. Under the new treaty Canada would have 40,000 cubic feet and the American interests 30,000 during the period of the year when power is most needed on each side of the river, and when, too, navigation is at its height. It would be a total of 70,000 cubic feet, with still another 30,000 in the offing, or a total of 100,000 cubic feet withdrawn by the power grab at Niagara, as against the 10,000 feet denied Chicago.

Recognize Chicago Diversion.

The difference of 10,000 feet between Canada's diversion of 30,000 from the Niagara river and the 20,000 on the American side is charged to the fact that in making the treaty of 1910 the two governments recognized a 10,000

cubic feet diversion at Chicago. When the international waterways commission, with three American and three Canadian members, made its report in 1905, it set forth that the difference in favor of Canada at Niagara was allowed as compensation for what was recognized as the necessary diversion at Chicago.

The three American commissioners recommended diversions from the great lakes as follows:

BY THE U. S.

Niagara Falls Hydro-Elec. Power Co. 10,000

Niagara Falls Power Co. 10,000

Electric Power Co. 10,000

Chicago drainage canal 10,000

Total 40,000

BY CANADA.

Can. Niagara Power Co. 10,000

Ontario Power Co. 10,000

Electric Development Co. 10,000

Niagara Falls Park Ry. 10,000

Welland Canal (in add. to local) 10,000

Total 40,000

The three Canadian commissioners

make similar recommendations, saying, "If our proposal is carried out, the diversion will be."

AMERICAN SIDE.

Niagara Falls 10,000

Chicago drainage canal 10,000

Total 20,000

CANADIAN SIDE.

Niagara Falls and peninsula 30,000

On the basis of the joint commission's reports the treaty of 1910 was drawn up. It put the diversion at Niagara in round numbers, giving Canada 30,000 cubic feet and the American side 20,000. The diversion at Chicago of 10,000 feet was not specifically mentioned in the treaty because Lake Michigan is not a boundary water.

COLD PARALYZES POLAND; WOLVES EAT UP FAMILY

(Chicago Tribune Press Service.)

WARSAW, Poland, Jan. 20.—Ex-

traordinary heavy snow and a cold

wave practically separated the north-

ern parts of Poland from Warsaw.

Trains were delayed twenty-four

hours, cable and telephones were in-

terrupted. The frost is especially se-

vere in the Vilna district, where the

hungry wolves are attacking the vil-

lages. The peasants are conducting

a real warfare with the hungry beasts,

using grenades, as rifle fire was not

sufficient to repulse them. Near

Mankowicz wolves attacked a family of peasants, devouring the farmer, his wife and two children. Three bodies partly devoured were discovered near Dvor tonight. Military authorities are organizing a large hunting expedition, relieving the farmers who are remaining in their homes.

Jugo-Slavia Suppresses

DR. C. C. LITTLE TO QUIT MICHIGAN U., ANN ARBOR HEARS

Will Hand In Resignation
Tonight, Is Report.

Ann Arbor, Mich., Jan. 20.—(Special.)—University of Michigan students and faculty learned today that the resignation of Dr. Clarence Cook Little, as president, probably will be presented to the board of regents tomorrow night.

Announcement that such action would be taken by the president appeared in a local paper today. Dr. Little, however, refused to comment. Should the resignation be offered to the regents, it is reported they will accept it. Individual regents stated they had no information concerning the matter, although Regent J. E. Reed of Ann Arbor said he had heard the rumors since last summer. Secretary Shirley W. Smith today refused to admit that he had knowledge of such a step is contemplated by the university president.

Rumor Has Been Persistent.

The possibility that Dr. Little would resign has been matter of campus comment for some time. During the last few weeks the rumors have become more persistent. Should the resignation be offered to the regents tomorrow night, it is believed the regents will be disclosed. Today's newspaper announcement suggests that innovations introduced by Dr. Little, together with his view on certain subjects, have been major factors in causing the resignation of the president and the board of regents.

Dr. Little has been a storm center since he became Michigan's sixth president in 1920. His emphatic views have divided the campus. One group is a vigorously pro-Little as the other is acrimoniously hostile. Few took a middle ground. Either he was all right or he was all wrong.

Calls Views Iconoclastic.

The Washtenaw Tribune, a newspaper printed in Ann Arbor and apparently a mouthpiece of some member of the board of regents, in announcing today that Dr. Little had resigned, described his views as "iconoclastic" and declared that he had not furnished the leadership the regents hoped for.

"Since coming to Michigan, both Dr. Little and Michigan have been much in the public eye," the Tribune said, "because of rather iconoclastic views and the innovations he has sought to bring about. Among the latter are his pronounced views on birth control and race betterment, which set the state by the ears. In the latter may be included the auto ban, the university college idea and the alumni 10 year program."

MAY RESIGN

CLARENCE C. LITTLE.

Russian Monarchists Face Rift Over New Chieftain

NICE, France, Jan. 20.—(AP)—A schism has developed in the ranks of Russian refugees. The "white organization" in the French and Italian Riviera, numbering thousands of former officers and soldiers of the czarist regime, has refused flatly to accept the leadership of Gen. Alexander Pavlovitch Koutlapoff, who last Friday in Paris was named successor to the late Grand Duke Nicholas. Grand Duke Cyril is also most unpopular because of his quarrel with Nicholas, whose funeral he failed to attend.

ALD. GUERNSEY FACES RIVAL IN COUNCIL CONTEST

F. H. Burke Seeks Sixth
Ward Seat.

Mayor Thompson's most outspoken foe in the city council, Guy Guernsey, veteran Sixth ward alderman, faces a contest for the retention of his seat at the Feb. 26 election, developments yesterday indicated.

It had been reported that Ald. Guernsey would be unopposed, but a day ago an opponent entered the lists against him. He is Fred H. Burke, secretary of the Woodlawn Business Men's association and former publisher of the Woodlawn Gazette. The two candidates made statements yesterday setting forth the prospective campaign issues between them.

This question, according to Guernsey's friends, will be the main gage of battle: Should an alderman concentrate his attention upon big municipal problems or should he devote a large part of his time to the local interests of his ward?

Gets Few City Favours.

Because of his hostility to the Thompson administration, his supporters point out, Ald. Guernsey has received few of the favors that department heads have to dole out. Ald. Guernsey's friends say that he has refused to trade his council vote for pay roll patronage or for special attention on street and alley cleaning, garbage disposal, traffic light, driveway permits, or fixing of police clips.

"Ald. Guernsey does not give enough time to his ward," said Mr. Burke. "Our forces down here are scattered and we have no leadership. If I am elected, I will establish a permanent office in the ward and attend to the people's needs."

Theodore M. Becker, president of the business men's association and supporter of Burke, complained that "when we want to have a hole in the pavement patched up we have to see about it ourselves." This is an alderman's duty, he declared.

How Guernsey Stands.

The reply of Ald. Guernsey to these critics is that an alderman running for and watching the garbage cans and getting free tickets for his friends not only dissipates his energies but sells his independent birthright for a mess of pottage ladled-out by the mayor.

Politically, the Guernsey-Burke battle promises to be on the issue of Thompsonism. The Thompson forces in the Sixth ward are headed by Bernard W. Snow. Asked for a statement on his attitude toward Thompsonism, Mr. Burke said:

"I would be glad to have the support of Mr. Snow's group or any other group of citizens. If I were a councilman and Mayor Thompson came along with a constructive project, I certainly would give him my help gladly and freely."

With the possible exception of Ald. Dorsey Crowe (43d), a Democrat, Guernsey has the most consistent anti-administration voting record in the council.

Fred Heiser, an attorney active in the recent campaign of Gov. Emmerson, announced himself yesterday as a candidate for alderman in the 12th ward. He will run against Ald. Bryan Hartnett, a Democrat. Heiser is by trade a printer. He lives at 2351 South Hoyne street.

Add Intermediate Cities

To Chicago-Dallas Air Line

Cincinnati, O., Jan. 20.—(AP)—Chicago, Dallas, Cleveland, Louisville, Cincinnati and all intermediate cities will be hooked up this spring by an airplane passenger-carrying system as the outcome of the recent purchase of the Continental Air Mail lines by the Universal Aviation company, it was announced today.

4 EX-OFFICIALS OF WILLIAMSON ON TRIAL TODAY

Marion, Ill., Jan. 20.—(Special.)—Official Williamson county will be deserted Monday, with virtually all of the county officials in East St. Louis to testify either for the United States government or for the defense in the trials of Artie Boswell, former state's attorney, George Bell, former coroner, H. T. Boyd of Centralia, former Marion police chief, Hemie Byrn of Johnston City, former deputy sheriff and Johnson City chief of police, and Pete Salmo and Donnie Loni, alleged Williamson bootleggers. All are charged with violation of the prohibition enforcement act.

Sheriff Oren Coleman is to be one of the main government witnesses against Boswell and he with three deputies have taken Art Newman, confessed member of the Birger gang, and convicted killer of Highway

Patrolman Lory Price and wife, to East St. Louis as a government witness.

County Clerk S. E. Storme leaves early Monday with court records to show that Boswell dispensed many liquor cases in county court and Circuit Clerk George Calhoun is taking his records to show files of unprosecuted cases in his court. Jack Bradley and John Thompson, policemen in Marion under Chief H. T. Boyd, are to tell of helping load into a truck some liquor, captured by Boswell in a raid. James Swain of St. Louis, former Marion fire chief, is to be a government witness and is expected to testify that the liquor was delivered to Charles Birger of the Birger gang instead of to the city dump and destroyed as claimed by Boswell and Boyd.

The government expects to call 150 witnesses, virtually all of them from Williamson county and the defense doubless will use an equal number. Attorney George E. White of Marion and Former City Judge E. N. Bowen of Herrin, are two of the defense attorneys.

CORRECTION!

Due to a typographical error in our "ad" in yesterday's Tribune, Del Monte Red Sockeye Salmon, 1 pound can, was advertised "7 for \$1." This should have read "4 for \$1," and is on sale today at this low price.

COOLIDGE REGIME SINKS NAVY FAR BELOW BRITAIN'S

Leaves Office with Sea
Defense Crippled.

(Continued from first page.)

ation was made until March 4, 1928, and then of only \$2,000,000 to begin construction in 1928 of the cruisers Pensacola and Salt Lake City, authorized to cost \$11,100,000 each. The next year the presidential budget proposed an appropriation of \$11,000,000 more for these two cruisers and that amount was appropriated.

The President proposed no appropriation for starting construction of the others, but Congress proceeded, despite his lack of interest in the subject, to appropriate an additional \$1,500,000 to begin work on the Augusta, Houston, and Chicago.

When Congress met in December, 1928, Mr. Coolidge showed his true colors. He submitted no estimates for laying down the last three of the eight cruisers and frankly stated that he was opposed to building them. His budget proposed \$25,000,000 only for work on the five cruisers then under construction.

That action led to the famous battle between Congress and the executive over the three cruisers which ended in the defeat of the President. Had the appropriation for these ships been made at that session of Congress, the authorization for their construction would have lapsed July 1, 1927, under the terms of the enabling act. The result would have been five cruisers instead of eight. That was what Mr. Coolidge aimed to accomplish.

Manage to Save Three.

In the midst of the ruction over his move to cut down the number of cruisers, for which he had the enthusiastic backing of the organized pacifists, Mr. Coolidge proposed, in lieu of the three cruisers in hand, an authorization to build ten cruisers some time. A bill providing for ten was reported favorably by the house naval affairs committee, but failed of passage. Congress eventually saved the three cruisers Mr. Coolidge had sought to scrap and appropriated \$450,000 for preliminary work thereon.

For the current fiscal year Congress appropriated \$46,110,000 for work on all eight cruisers, making a total of \$48,160,000 appropriated therefor and leaving \$48,240,000 required for completion of the ships.

Prevented Gun Elevation.

For several years the President also prevented the elevation of the guns on our battleships which was necessary to give them a range equal to that of the British and Japanese. He feared the British would regard gun elevation a violation of the Washington treaty. Then, whether because

he learned the British didn't care or because of some other reason, he gave his approval to gun elevation, which was begun belatedly and is now in progress.

Throughout the early years of his tenure Mr. Coolidge was shaping what he regarded the proper policy for a successful conference on further limitation of naval armament. He would not build auxiliary craft up to the 5-5-3 ratio because it would invite armament competition, he felt. Then the Geneva conference which he called was held and was a failure. He found the policy he had pursued was of no avail and that he would have got farther had he built ships instead of refusing to build them. We had no ships to scrap and Great Britain and Japan would make no concessions.

Disillusioned at Last.

The Geneva conference disillusioned Mr. Coolidge. He had touched the high water mark of his pacifism in his Trenton speech in December, 1928, when he suggested that the United

States disarm alone. A few months later, the developments at Geneva opened his eyes to the folly of his previous course.

Then he swung directly around and proposed a program of navy strengthening consisting of 71 ships to cost \$718,000,000. But the conversion of the President came too late. Many of these ships would have been in existence had he not earlier opposed building auxiliaries up to the 5-5-3 ratio. Congress refused to approve so radical a program and whittled the 71 ships down to the 15 cruisers and one air-plane carrier contained in the pending bill.

Even the conversion of the President is now called in question by his opposition to the three year time limit in the house bill on the laying down of these 16 ships. Without the time limit there would be no assurance that the cruisers ever will be built.

None Were Struck Off Yet.

A gunman entered the drug store at 2015 Milwaukee avenue, held up the proprietor Joseph Lieberman, and escaped with \$70.

TRIBES WHO PUT "WATER BOY" KING ON THRONE REBEL

TASHKENT, Russia, Jan. 20.—(AP)—Reports of military maneuvers in Afghanistan continued to trickle over the border tonight as it became apparent that revolution and counter-revolution were by no means ended. Growing dissension among the forces of the "water boy" king, Bacha Sakao, was apparent in the advices received here today. All messages from Afghan cities indicated that the outlaws and religious fanatics who had aided the rebel leader in overthrowing King Inayatullah and seizing the throne were quarreling violently and fighting among themselves.

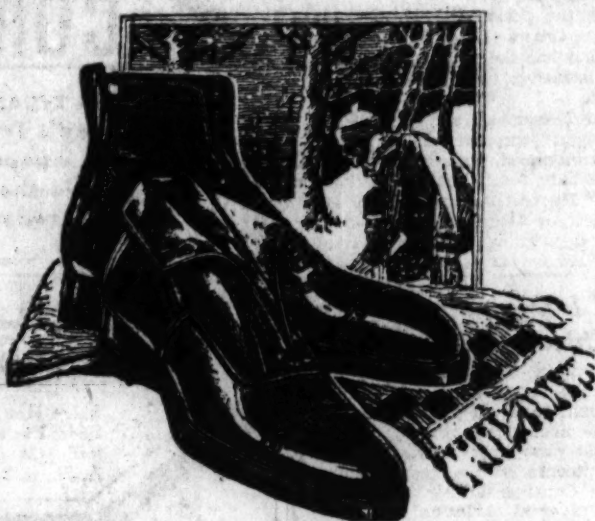

It was reported also that the state of confusion had raised new hope for Inayatullah and his brother, the former King Amanullah, in their desire to regain the throne at Kabul. A tribal fight with Kohistan forces recently, the reports asserted, and one message said rumors had reached Kabul that the Shinwari and Mohmands—leaders in the revolt—were marching on Kabul to depose Bacha Sakao. The new ruler has sent out detachments of his Kohistan forces to meet the advancing tribesmen, it was reported.

WATCHMAN SEVERELY BEATEN.
Albert Bauer, 35 year old watchman employed at the furniture factory of the Frank Albert Manufacturing company, 163 North Mar street, was severely beaten by two men yesterday who broke into the factory office and stole a quantity of tools.

This Is An Excellent Time To Buy Furs

Winter Weather has just arrived and will be with us at least three months more. For comfort one must have a Fur Coat. So cold weather and excellent values make this Sale of Fur Coats particularly opportune.

Furs are an investment and should be bought as such. Unless style and quality prevail, it is a poor investment. Then, too, you can get the utmost value for your money if you make a purchase now, which is the time when the dealer sells at the lowest possible prices. And the security which comes from purchasing from a house of the best reputation is exceptionally important.

This then is the time to buy your Furs. Our regular January Sale of Furs, reinforced by a very large purchase of excellent Fur Coats, presents unusual opportunities to make substantial savings.

SALVATION ARMY WILL ASK DELAY ON BOOTH'S WRIT

Fights for Approval of the
General's Removal.

LONDON, Jan. 20.—(AP)—Writs have been served upon Chief of State Higgins and the seven commissioners who signed the requisition for summoning the high council of the Salvation Army, requiring them to attend high court here tomorrow for a hearing on the application of Gen. Bramwell Booth for an injunction against appointment of a successor to his office. The high council intends to ask for a continuance of the case until Friday in order to give the seven members time to prepare an answer. If this is granted it is clear that the work of the high council, which plans extensive changes in the government of the organization, will be greatly protracted.

Booths Ignore Appeal.
No answer has been received to the telegram sent to Mrs. Bramwell Booth by one of the oldest divisional officers, Lieutenant Commissioner Cowham of the Southampton area. He appealed to the Booth family to desert from legal proceedings on the ground that they are contrary to scripture and to the army's own regulation, which positively prohibits settlement of disputes within the army by recourse to the civil courts. It is known that the seeking of the injunction has alienated the sympathies of three of the four commissioners who previously had supported the cause of Gen. Booth. The appeal now stands virtually unanimous on the side of the reformers and against the Booth family.

General's Own Actions.
The reformers charge that Gen. Booth himself, as late as 1927, laid down the regulation forbidding Salvationists to go to law with other members of the army on pain of dismissal from the army. They pro-

posed surprise and regret that the general himself should violate that regulation and that he should seek to test the legality of the deed of 1927 under which he accepted the generalship.

57th ANNIVERSARY FESTIVAL

ANOTHER WEEK OF VITAL THINGS THE WHOLE STORE IS HUMMING

The most annoying things in a business are the things that may annoy customers.

We try to arrange by anticipating as much as possible even any trifle that may cause annoyance.

We do this for two reasons: One is that we feel it our duty to make every one's transactions here agreeable and the other is that we have a pride in an organization which may be generally recognized as trustworthy, dependable and expert in selecting quality foods.

It is the plan of this store not only to serve you, but to protect you—not only to win your custom, but to please you in every particular. And nothing is intentionally offered "for sale" that has not been carefully selected and the quality closely scrutinized.

Florida Oranges

FLORIDA GRAPE-FRUIT, 3 doz. \$1.09; 2 doz. \$1.09; 1 doz. \$1.09.

BOOZE HOSPITAL IS FLOURISHING UNDER DRY ERA

Higher Classes Taking the Cure Now.

(Continued from first page.)

days when they are deemed prepared to board the water wagon.

"Some of the men who come in here have been accustomed to drink from a pint to a quart of whisky each day," Dr. Oughton explained. "It would kill them to cut this supply immediately."

Others in line were those who had been at the institute for two weeks. Some were irritable, some apparently contented. When a man is declared "cured," it was explained, he remains so only through his own wish to do so. He has no aversion to liquor, it does not nauseate him, but the institute claims to instill in the patients an indifference to drinking.

The patients receive hypodermic injections four times a day and also drink a tonic. They are forbidden cigars, but may smoke cigars or pipe tobacco. It is the theory of Dr. Charles L. Hamilton, who has been connected with the institute for 34 years, that cigars create a craving for intoxicants.

Drinking Good Liquor.

Is present day poisonous liquor responsible for the modern drinker's condition? Not according to Dr. Bert Tripper, specialist in nervous diseases, who is on the institute's staff. Shortly after prohibition went into effect the patients were suffering from poor grades of alcoholic drinks, he said, but now:

"The class of men who come here are able to afford fairly good liquor. They don't drink the poison that the hobo is forced to down."

The patients at the noon examination had received their hypodermics, their tonics, their physical examination, and had departed. Dr. Oughton suddenly inquired, sharply:

"Where's old Mr. Maloney?"

One Falls from Grace. No one knew. The strictest rule of the institute is that all patients must report promptly for their treatments four times a day. A frantic telephoning about town failed to disclose the whereabouts of the missing patient.

The physicians said they were hopeful that Mr. Maloney had a good excuse, but as the reporter left town the sheep was still missing from the fold and there was apparent a growing and saddening sentiment that old Mr. Maloney had fallen from grace.

"Dwight is like every other town," said Dr. Oughton, sighing. "There are bootleggers here, of course. It seems a pity."

MOSCOW SCHOOLS CROWDED; THREE SHIFTS PER DAY

(Chicago Tribune Press Service.)

RIGA, Latvia, Jan. 20.—Moscow's school problem has reached an acute stage, according to the newspaper Moscow Worker. It reports that the city has petitioned the commissar of finance to permit a special board issue for the construction of more schools.

The paper reveals that since 1914 the number of pupils in Moscow schools has increased 35 per cent, while the floor space devoted to education has decreased 53 per cent. Moscow schools run in two and three shifts daily. Pupils in the older grades attend school in the evenings.

The paper further reports that in

the near future it will be necessary to find accommodations for an additional 50,000 pupils and during the coming five years, in addition to the regular budget of \$45,000,000 will be needed. Schools in other Russian cities are in a similar predicament, despite the exclusion of children of non-proletarian parentage. Half of the schools of Moscow are occupied at present as government offices.

Wabash River Goes Out of Banks at Mount Carmel

Mount Carmel, Ill., Jan. 20.—(AP)—The Wabash river reached flood stage here today, after a rise of eleven feet in 48 hours, following a heavy downpour that accompanied the windstorm of Friday. The river was spreading out over low ground late today, but no serious damage had been done.

France Easy on Smuggler, but Keeps His Diamonds

(Chicago Tribune Press Service.)

LILLE, France, Jan. 20.—Jack Karber, an American, who was arrested Tuesday for smuggling 1,000,000 francs (about \$40,000) worth of diamonds across the Belgian border in a sack sewed in his undershirt, today was let off with a fine of 100 francs (about \$4) and a sound bawling out. Although indulgent in sentencing him, the authorities told Karber they would take care of the diamonds.

Germany and Poland Take Step Toward Trade Pact

(Chicago Tribune Press Service.)

WARSAW, Poland, Jan. 20.—August Zaleski, foreign minister, and Herr Rauber, German minister to Poland, today signed an agreement covering a \$25,000,000 annual lumber trade. The agreement is considered the first step toward signing the long disputed commercial treaty between Poland and Germany.

The BEAUTY and ECONOMY of Oriental Rugs

WITH their exquisite color blendings, masterful designs, and enduring fabrics, Oriental Rugs not only lend a background of beauty to the home by bringing furniture, draperies and other accessories into harmony, but they are so economical as well, especially when you buy at Pushman's! Note the "first cost" of the Rugs listed below and divide it by the fifteen, twenty or twenty-five years of reliable service received, to determine the "annual cost," which is the only true basis for judging economy. Surprisingly low, isn't it, and every one of these years has radiated the rich enjoyment of these woven masterpieces.

A Few Exceptional Values for January

INQUIRY PO TO MURD SULLIVAN

Authorities Are
Banker Was

BY ORVILLE

(Chicago Tribune Press Service.)
Sullivan, Ind., Jan. 20.—The person who killed the late President of the People's National Trust company of Indianapolis, was one of the most familiar with which the institution was connected.

That was established investigation of the all-time bank robbery in the history of the state bank of Shelbyville, Ind.

Bolinger was found from carbon monoxide after the body of Maple was sprawled on the floor within the next few days. It was disclosed that Bolinger had \$45,000 worth of alleged in Maple's bank.

Point to Maple's death at first to be a suicide, but the fact that the corner of the building was believed to be so strongly that a \$5,000 reward for his capture was offered.

An automobile was bank's side door about 10:30 p. m. on the night of the robbery, and the about the same time, it was established.

Bolinger, in his confession, said that he had been playing, and the about the same time, it was established.

Bolinger, in his confession, said that he had been playing, and the about the same time, it was established.

INQUIRY POINTS TO MURDER IN SULLIVAN CASE

Authorities Are Convinced
Banker Was Slain.

BY ORVILLE DWYER.
(Chicago Tribune Press Service.)
Sullivan, Ind., Jan. 20.—(Special.)—The person who killed Edgar D. Sullivan, vice president and trust officer of the People's National Bank and trust company of Sullivan, last Wednesday, was one who was thoroughly familiar with the manner in which the institution conducted its business.

That was established today in the investigation of the alleged slaying of Sullivan and the attempted suicide of Joseph Bolinger, president of the First State bank of Shelby, six miles from Sullivan.

Bolinger was found unconscious from carbon monoxide gas two hours after the body of Sullivan was discovered on the floor in the bank. Within the next few hours it was disclosed that Bolinger had placed \$15,000 worth of alleged forged notes in Sullivan's bank.

Point to Murder.
Sullivan's death at first was thought to be a suicide, but the bank's directors and the coroner now are satisfied he was murdered. The directors believe it so strongly they have offered a \$5,000 reward for his slayer or slayers.

An automobile was seen at the bank's side door about the time of the slaying, and the car sped away about the same time, it has been established.

Bolinger, in his confession to the directors of Sullivan's bank between the hours of 3 and 6 a. m., Thursday, named two men as having had something to do with the financial operation involving the Sullivan institution.

A communication from the chief of police of Indianapolis, offering to arrest these two men, was transmitted to bank directors and county officials late yesterday. No one here would order the arrests. The Indianapolis communication said the two men would be in custody within an hour after word they were wanted was received from here.

Knew Inside of Bank.
Establishment that only some one who knew the inside of the bank could have been the murderer of Sullivan of such there was made by R. W. Akin, vice president and cashier of the institution.

Mr. Akin pointed out where the body of Sullivan was found, reconstructed how he must have been standing when shot, demonstrated that he could hardly have shot himself, and pointed out dark stains of blood splattered on the walls as proof Sullivan had not been a suicide.

The official then walked from the hallway in which Sullivan's body lay at the rear right side of the bank, around cages and through several rooms up to the left hand front and showed how the revolver in which Sullivan was killed had been under a shelf in that cage.

He believes one would have had to walk at least seventy-five feet in a roundabout way to get to the revolver if he was found a few feet from Sullivan's body. Both the bone handles of the revolver were broken from the

force with which it landed on the marble floor.

Of course, Maple knew where this gun was kept, and if he was murdered when his murderer must have known where the gun was kept, the authorities declare.

Was it the hand of Maple or the hand of a murderer which was slipped under the shelf to grasp the revolver lying out of sight down there?

Was it the hand of a murderer that dashed the gun on the floor, or did it fall from the suicide grasp of Maple? Mr. Akin, reconstructing it all, insists it was the hand of a murderer. The cashier has one powerful argument to show Maple did not get the gun from the hidden pocket to kill himself—a fact only disclosed this afternoon. And that is that Maple had in his vest pocket a .25 caliber automatic pistol with steel jacketed bullets, a pistol he carried as a matter of course.

Wouldn't Maple have used that .25 automatic of his own if he wanted to shoot himself to death? Akin asked.

Bolinger in Jail by Choice.
Meantime Bolinger who has been charged with the forgeries, remains in the Sullivan county jail by preference.

The directors and Harry Webster, detective for the Indiana Bankers' Protective association went to Bolinger's house in Shelby and brought him to Will H. Hays' office here at 3 o'clock Thursday morning, and for the next two or three hours Bolinger did nothing but confess and keep on confessing how he had looted his own bank and obtained \$85,000 more from Maple's bank through forged notes, the detective related.

Earlier Bolinger had come out of his suicide stupor muttering about the death of Maple. How he knew about the death of Maple in Shelby, six miles away, has neither been asked him nor explained.

SLAIN BANKER

EDGAR DONALD MAPLE.

ENDS HIS LIFE BY LEAP FROM 25TH STORY WINDOW

Detroit, Mich., Jan. 20.—(Special.)—William Burnstein, 49, threw himself to his death out a window on the twenty-fifth floor of the Burtum tower today. The suicide was attributed to financial reverses. Burnstein, who owned a dry goods and woman's apparel store, went to the office of J. B. Beckenstein, attorney, in the tower. He was trying to raise money on real

estate. At one point he expressed his discouragement by turning to the window and saying to Beckenstein, "Business is so bad I feel like jumping out of the window."

Walking back and forth in the office, Burnstein suddenly made a dash for the half open window and jumped out.

EVANSTON YOUTH ARRESTED.
Michael Vasil, 23 years old, 814 Locust street, Evanston, was held in the Evanston police station yesterday on a charge of disorderly conduct after he had driven a team of horses attached to a bob sled in a wild ride through Evanston streets Saturday night.

REMEMBER how the Sherlock Holmes detective stories entranced you? How you sat up most of the night, thrilled while some fictitious mystery unfolded itself in the pages you were reading?

Here are detective stories more fascinating, more difficult of solution, than any you have ever read. Sidney Sutherland, famous reporter, will describe for LIBERTY readers the ten great unsolved murder mysteries of our generation.

LIBERTY will pay \$10,000 for the best solutions to these crimes. Great detectives and noted criminal lawyers have failed to clear them up. What is your solution? Read LIBERTY today—and put your detective instinct to work!

Love, jealousy, avarice, hate, revenge—what was the passion that prompted these crimes? You may enter this fascinating contest at any time. You may attempt the solution of one crime, or you may attempt to solve them all.

Write with pencil, ink or typewriter. You will be judged chiefly on plausibility—the conclusions you reach from the material available.

You will find these true stories of unsolved crimes more fascinating than any thriller that has kept you reading into the cold, gray dawn. You will find the game of Sherlock Holmes more interesting than any you have ever tried.

And remember that \$10,000 will be paid for the best solutions.

5c Liberty
A Weekly for Everybody

\$10,000

for the best solutions
of these actual crimes.

On all newsstands—Buy your copy today!

Read These Rules Carefully!

LIBERTY will publish 10 distinct stories in this new real-life murder mystery series. \$10,000 will be paid for the best solution of each mystery, \$10,000 for the series. For each of the ten murder mysteries, prizes will be divided as follows: First prize \$500; second prize \$250; third prize \$100; fourth prize \$50; fifth, sixth, seventh and eighth prizes \$25.

Everyone except employees of LIBERTY and members of their families is eligible. Address solutions to Sidney Sutherland, care LIBERTY WEEKLY, INC., 247 Park Avenue, New York City, N. Y. Solutions must be in the mail within four weeks after date of issue in which the story appears. Names of prize winners will be published as soon after they are selected as is possible. All pertinent details known are given in the articles, and correspondence asking for more information cannot be answered. Mr. Sutherland will be the sole judge of the manuscripts submitted. Solutions will be judged on plausibility. Literary style does not matter. You may submit as many solutions on each mystery as you like. Each week's solutions will be judged as a unit. You may submit solutions on any one in the series, or on all ten.

LISMAN COUNSEL RAPS POLICY OF CAR COMPANIES

"Fraud and Futility," Is
Obvious, Harlan Says.

BY OSCAR HEWITT.

John Maynard Harlan, attorney for the Lisman interests seeking a street railway franchise in Chicago, issued a broadside yesterday against the "fraud and futility" of the policies of the present companies. These have submitted a list of nine "fundamentals" for enabling legislation and an ordinance franchise and the aldermen in return have submitted a counter list of nine fundamentals.

"Nothing can be farther from the truth," said Mr. Harlan, "than that the city and existing companies are close to an agreement. They are very far from a possible agreement on even the essentials of a franchise."

Companies Demand Profit.

"Fundamental No. 3," continued Mr. Harlan, "provides for service at cost, the cost of service consisting of items specified in the ordinance, but the ordinance has not yet been drawn. One of the items of cost is cost of money obtained for additions and extensions. The city has insisted that the companies shall get no profit on new money put in. The companies demand a profit over and above interest on securities sold to pay for additions and extensions. Another item of cost is cost of money representing the initial purchase price. The city has insisted that this purchase price for the surface lines shall be \$164,000,000. The companies insist upon \$220,000,000. The city wants the price for the elevated lines to be \$140,000,000. Mr. Insull wants \$125,000,000. Neither party has yielded."

"Upon the initial capital value the city has offered to allow 5 1/2 per cent return. The companies first demanded 6 1/2 per cent, and now they ask a 'reasonable return.' What a 'reasonable return' will be, nobody knows."

100 Millions Apart.

"Fundamental No. 3 gives the city the right to purchase the transit properties at the price to be fixed in the ordinance and on that basis the city and companies are \$100,000,000 apart."

"Another fundamental provides that subways be built by the city and operated by the companies. But upon what terms?"

"Six of the fundamentals state the points upon which the companies want to negotiate, and three state what they will do, if the negotiations on the six disputed points end in future agreements which they will accept."

"The companies attach one condition to their program. They demand that now and before they even enter upon negotiations to solve the six disputed points, the legislature shall at once take away the city's power to make a term grant, and that its only power shall be to make an indefinite grant."

Says Futility Is Obvious.

"The fraud and futility of this position is most obvious. Why take away a power that the city has used for sixty years and substitute for it something the city has never tried before, if there is no assurance whatever that when the city loses its old power and gets the new power, the companies will absolutely agree to accept the city's terms to solve the present traction middle?"

"To deprive the city of the power it now has to give a fixed term grant is to eliminate the ordinance offered by the Lisman group in competition with the present companies. Is it not perfectly apparent that it is the demand of the Insull-Bain-Busby group that the city be stripped of its power to negotiate with their competitor, before they will negotiate. They intend to place the city in the position of being forced to accept the terms they will offer, or permit the present situation to continue."

Real Advantage to Lines.

"If the city refuses to accept the companies' terms, the surface lines and their bankers will have the advantage. With no franchise obligations, the companies will not need to make any extensions or improvements, although their revenues are daily increasing. Even the obligation, existing for twenty years to pay the city 55 per cent of the net income—now contested and denied in the U. S. court—would be ignored and forgotten. The revelations of the last few days show how probable the present demoralized condition has been and in the bankers receiving the deposits of enormous unexpended revenues of the surface lines on which only 2 to 2 1/2 per cent interest is paid, whereas the interest on the senior bonds held by the public is 5 per cent, the strap-hangers are paying 1 cent car fare and the junior securities are getting nothing at all."

Radio Contest Winner Gives Elmer Surprise

Hazel Arth Justifies Her
Selection, He Says.

BY ELMER DOUGLASS.

It is safe to assume that the radio audience had a surprise in the unexpectedly excellent showing by Miss Hazel Arth, recent radio audition winner, in the New York concert, through W-G-N, 8:15 to 9:15, last evening. I, for one, was surprised when Miss Arth was announced as the winner. Possibly Miss Arth was laboring under some handicap during the contest, of which the judges may have been aware. Any how, last evening she conclusively justified her right to first honors.

Miss Arth won her original award for the singing of "My Heart at Thy Sweet Voice," which she sang in a slow, almost listless manner, although rather attractively. Last evening she sang this same song. But the tempo was rapid and there was life, buoyancy, brilliancy, and richness, with something of the fullness of maturity in her voice.

In this concert, also, was Armand Tokatyan, a Metropolitan tenor, who appeared on this same concert hour about a year ago. He is just about as fine a radio singer as one could ask. It is sheer enjoyment to listen to him.

The return of W-G-N's Sunday "Music Room" concert, 9:15 to 10, featured Modest Moussorgsky's compositions. This composer speaks to an original voice from the very heart of deepest Russia, and I hope we can have a Moussorgsky concert No. 2.

The Chicago Symphony orchestra, conducted by Frederick Stock, through W-G-N, 6 to 7, was akin to golden music of rich thread and texture. There were some Wagner and some Beethoven and others, including Godard's Berceuse from "Jocelyn," played as a cello solo by Alfred Walenstein.

NOVELIST DIES; BODY NOT FOUND FOR FIVE DAYS

New York, Jan. 20.—(U.P.)—Leonard Cline, novelist and short story writer, was found dead today in his apartment. A medical examiner said he had died about five days ago of a heart attack.

The novelist's body, clad in pajamas and on a bed, was discovered by two tenants of the building.

Cline apparently had not been seen since last Tuesday night, when he gave a party in his apartment. Miss Helen Todd, agent for the building, told police that during the party Cline had complained to her of his heart.

Cline figured in the news in 1927 when he pleaded guilty to involuntary manslaughter in connection with the killing of his friend, Wilfred P. Irwin, on May 16 of that year at the novelist's farm at Williamstown, Conn. The plea was accepted by the prosecutor, who said that additional evidence in his hands "led to a greater understanding of the crime." Cline was sentenced to one year in the Tolland county jail.

While in jail he translated "The Magic Lamp," a series of spiritual exercises from the Spanish. The author's widow, Mrs. Katherine G. Cline of Detroit, Mich., was notified of his death.

A. W. MONFORT DIES OF INJURY RECEIVED IN FALL

A. W. Monfort, 70 years of age, for the last thirty years a Chicago photographer, died yesterday morning at his home, 225 North Austin boulevard, as the result of having been knocked down last October by a hurrying pedestrian. Crossing the street near his studio at 27 East Monroe street, he collided with a tall man, and in the fall his hip was broken.

He was the holder of many awards for excellence in photography, prominent among them being a gold medal and diploma awarded him at the World's Fair of 1893 for the world's best figure posing. He also took honors at the international exposition in Paris in 1925.

Mr. Monfort was born in Chautauque, N. Y. He came west with his parents as a boy, and opened a photographic studio in Burlington, Ia., at the age of 20. He is survived only by his wife and business partner, Mrs. Olive Monfort.

Funeral services will be held at 2:30 o'clock tomorrow afternoon under the auspices of the Masonic fraternity, from the Kamp undertaking rooms, 318 North Central avenue, Austin. Interment will be in Oakwoods cemetery.

C. H. Oles, General Auditor for Prairie Oil-Gas, Dies

Amarillo, Tex., Jan. 20.—(U.P.)—C. H. Oles, general auditor for the Prairie Oil and Gas company of Independence, Kan., died in a hospital here today after two days of illness. He came here a week ago on business. Mrs. Oles and the couple's two sons were at the bedside.

3187 Fatal Cases of Pneumonia

CHICAGO had 3187 fatal cases of pneumonia last year. According to the city's Health Commissioner, 75% of them began with a "common cold". Beware of colds. Ward them off by using Glyco Thymoline as a gargle or spray several times every day. This simple precaution may save you and your family dangerous and costly illness. Doctors used Glyco Thymoline with great success in the flu epidemic of 1918.

75% started with a common cold

GEN. KING RUSHES TO DEFENSE OF BUFFALO BILL

Milwaukee, Wis., Jan. 20.—(Special.)—Recent publications intimating that the exploits of Buffalo Bill (W. F. Cody) have been magnified out of all semblance of truth have aroused the ire of Gen. Charles King, 84, veteran United States army officer, who was a comrade in arms of the famous scout and Indian fighter.

Despite his advanced age, Gen. King has signified his intention of appearing before the Society of Veterans of Buffalo Bill, who fired the shot that, in 1854, he said to have brought about a membership on the board of trade for \$10.

Mrs. Brush survived her golden wedding anniversary by over twenty-five years. The ceremonies upon that occasion were held at the Brush residence, then at 4415 Michigan avenue, in June 1903.

An unidentified man about 55 years old, who was found unconscious in the Illinois Central subway at about 10:30 p.m. Saturday, died yesterday at the county hospital, apparently from a fall on the ice. A doctor's statement bearing the name "P. J. Goble" was found in his pocket.

Gen. King primarily is incensed at charges contained in a book written by Richard J. Walsh and bearing the title, "The Making of Buffalo Bill." The author takes the stand that Cody was merely a guide and dispatch bearer and had few of the adventures "invented" for him later by press agents.

Doubt is expressed by the author as to whether Buffalo Bill had killed Chief Yellow Hand.

MRS. D. E. BRUSH, PIONEER OF CITY, DIES AT AGE OF 96

Mrs. D. E. Brush, 6150 Dorchester avenue, a resident of Chicago since 1853, died at her home last night at the age of 96. She was the widow of Daniel E. Brush, millionaire commission merchant and late president of the Brush & Hough company at the Union stockyards. In 1854 he said to have brought about a membership on the board of trade for \$10.

Mrs. Brush survived her golden wedding anniversary by over twenty-five years. The ceremonies upon that occasion were held at the Brush residence, then at 4415 Michigan avenue, in June 1903.

Funeral services will be held at 2:30 o'clock this afternoon from 1417 East Sixtieth street, followed by interment at Oakwoods cemetery.

DEATH NOTICES

**GIRL SHIPMATE
IN CUBA SUES
YACHT OWNER**

**Bodiamonded Actress
Wants \$250,000.**

(Chicago Tribune Press Service.)

(Pictures on back page.)

HAVANA, Jan. 20.—With diamonds shining on her fingers and ankles, the pin-sticking show girl from Alabama, arrived here from Key West this morning. Frances was not alone. She was accompanied by lawyers, agents and threats against C. P. (Conkey) Whitehead, the millionaire sportsman whose yacht she captured and used for her last trip from Havana to the mainland.

"Well, boys," she greeted the reporters. "I'm here to see justice done." As she stepped rapidly down the gangplank she paused to shed a tear for her troubles.

She Wants \$250,000.

"I loved Conkey," she said, "but he betrayed me and I'm suing him for breach of contract, false arrest, character defamation, and breach of promise to marry—\$250,000 worth in all. He broke my heart and I'll make him pay. I don't drink, I didn't do anything but love him, and he had me arrested."

She added that her lawyers in Atlanta had filed suit yesterday against Whitehead, charging humiliation and destruction of a theatrical career. The action was filed on instructions from Ralph Burton, a Washington, D. C., attorney, who accompanied her to Havana, she said. Burton will be assisted here by a Cuban attorney, for it was in Cuba that most of the fun started.

He Bails Her Out.

Conkey Whitehead, who often was photographed in affectionate poses with Frances aboard his yacht, the *Malibu*, caused her arrest about two months ago. He said she stuck pins in him. But he furnished bail for her. Frances retaliated by boarding his yacht and refusing to get off. The police wanted her ashore to answer charges the immigration officers didn't want her.

Finally Capt. Simonson, the skipper, got clearance papers on condition that he would return his determined passenger to the United States government authorities.

As they sailed away Frances was shouting that she'd go to Washington and sue that she got justice. The *Malibu* deposited her in Florida and sailed back for Havana. The captain said the mate ceased saying that there was "too much liquor, too many parties, and no sleep," but to no avail. The Whitehead got a new skipper and a new mate, sailed on his yacht to Miami, where he since has been in seclusion.

INURED IN BUS CRASH.

Almon, Mich., Jan. 20.—(Special.)—One of the latest victims of the Detroit bus crash was a young woman, who was killed when the bus smashed broadside into a phone pole.

wife of John Schaeffer, died at 1143 N. Dearborn, Jan. 20, at 10:30 a. m. Burial at 1143 N. Dearborn, Jan. 22, at 10:30 a. m. Interment at Calvary cemetery.

Foch Cites Military Maxim of Napoleon to Get Food

PARIS, Jan. 20.—(AP)—Marshal Ferdinand Foch tonight had so far recovered from his kidney and heart ailments that his physicians announced they would permit him to leave his sick bed for a few minutes tomorrow morning.

The old warrior was feeling so much better that he discussed military operations and strategy with the doctors after asking for and partaking of more food than they had allotted for his diet. Soup and milk with a side dish of toast and jam was his menu.

"Napoleon said a soldier fights upon his stomach," the marshal said. "He generally was right in these matters. I feel like carrying out his orders." He then began a discussion of Napoleon, in the course of which he paid a compliment to a former enemy writer, Emil Ludwig, who wrote a book recently about the Corsican.

"Ludwig is the only man who seems to have understood Napoleon," said the former generalissimo of the allied armies.

While the marshal is improving daily, his janitor, Georges Scamaroni, a wooden-legged veteran of the 20th corps, the favorite unit of Foch, was in a state of collapse from overwork

and had to take to his bed early this evening.

"This has been the toughest week of my life, not excluding the battle of the Marne," said the veteran who lost his leg in that battle.

Dra. Daveniere and Helms-Boyer this morning issued a more optimistic bulletin than any since the marshal became ill. It said, "The marshal passed a very good night. A progressive improvement in all his symptoms was noted."

They announced their intentions of permitting the marshal to leave his bed for 15 or 20 minutes tomorrow. One of them said, "I would tell you Americans that the marshal is out of danger but when the heart has been touched prophecies are too dangerous."

Turkish Assembly Ratifies Kellogg Anti-War Treaty

ANGORA, Turkey, Jan. 20.—(AP)—The assembly has ratified unanimously the Kellogg pact for renunciation of war. The government instructed its ambassador at Washington to sign the pact. Foreign Minister Tewfik Ruzhdi Bey was so anxious for Turkey to be the first country to sign after ratification by the United States senate that he rose from a sick bed to encourage the urgent vote of the assembly.

DRYS SPLIT OVER 25 MILLION FUND TO ENFORCE LAW

Washington, D. C., Jan. 20.—(Special.)—New evidence of the widespread confusion and dissension in dry ranks over the proposed \$25,000,000 increase in appropriations for Volstead enforcement was revealed today when the Methodist Episcopal church board of temperance, prohibition and public morals lined up with Secretary of the Treasury Mellon in opposition to the additional allotment. Senate debates over the \$25,000,000 proposal, sponsored by Senator W. J. Harris (Dem., Ga.), consumed two days last week and is to be resumed tomorrow.

In its stand the northern Methodist board refused to follow the leadership of the Anti-Saloon league and the Methodist Episcopal church, South, whose ranking officials yesterday joined in a telegram to Secretary Mellon demanding that the latter either unqualifiedly approve the \$25,000,000 boost or admit unwillingness or inability to enforce prohibition.

The telegram, signed by Bishop Thomas Nicholson, president of the league, Bishop James Cannon Jr., of the Methodist church, South, and Eugene L. Crawford, secretary of the latter's church's board of temperance and social service, came as a complete surprise to other dry leaders and as a flat repudiation of F. Scott McBride, the league's general superintendent, who earlier in the week publicly opposed the Harris plan, quickly switched over to approval of it after the Nicholson-Cannon-Crawford telegram was made public.

In a circular issued, Dr. Clarence True Wilson, general secretary of the Methodist Episcopal board of temperance, prohibition and public morals, asserted "we do not believe that \$25,000,000 can be wisely used by the prohibition unit at the present time," although, according to the circular, "the suggestion is an evidence of a sincere determination on the part of congress that the law be enforced."

800,000 VETS FAIL TO APPLY FOR THEIR BONUS

Due Them Under Adjusted
Compensation Act.

[Chicago Tribune Press Service.]
Washington, D. C., Jan. 20.—(Special.)—Approximately 800,000 world war veterans entitled to a federal bonus for their service have failed to make applications for the adjusted compensation awarded them, according to recent figures compiled by the veterans' bureau.

When the so-called bonus bill was passed in congress it was estimated that 4,477,412 ex-service men or women would be eligible for its benefits. On Jan. 1, last, the veterans' bureau records showed that a total of 3,613,100 claims had been adjudicated and that the aggregate value of these claims was \$3,487,344,768. As originally passed the bill fixed Jan. 1, 1928, as the deadline for applications, but during the last session of congress the close limit was extended until Jan. 2, 1929.

Some Detailed Statistics.
The most recent detailed report of the bureau shows that on June 30, 1928, a total of 3,508,543 claims, valued at \$3,400,543,586 had been adjudicated. Of this number, 2,302,067 represented adjusted service certificates issued to veterans whose adjusted service credit did not exceed \$50, amounting to \$4,610,000. \$4,068 were claims on which quarterly payments were made to the dependents of veterans whose adjusted service was more than \$50, aggregating \$31,965,540; and 5,388 were cash payments to dependents of veterans whose adjusted service credit was less than \$50, amounting to \$147,263.

The sum of \$1,229,580 had been paid up to June 30, 1928, according to the report, on claims for the \$50 bonus to the dependents of veterans who died in service and therefore did not receive this benefit upon the termination of their service. Death claims to the value of \$81,139,884 had been awarded to the beneficiaries of 10,080 deceased veterans who had received adjusted service certificates.

757,706 Obtained Loans.
The report showed that between April 1, 1927, and June 30, 1928, a total of 757,706 veterans had secured loans aggregating \$73,884,776 on their certificates directly from the veterans' bureau. In addition to direct loans to veterans, the bureau during the same period redeemed loans made by banks on certificates to the value of \$24,405,542.

No figures are available on the number of veterans who, because they held the rank of major or above, are not eligible for the bonus. On Nov. 11, 1918, there was approximately 17,500 above the rank of captain in the army.

ALWAYS DEAD TIRED?
How sad! Sallow complexion, coated tongue, poor appetite, bad breath, pimply skin and always tired. What's wrong? You are poisoned. The bowels are clogged and liver inactive. Take this famous prescription used constantly in place of calomel by men and women for 20 years—Dr. Edwards' Olive Tablets. They are harmless yet very effective. A compound of vegetable ingredients and olive oil. They act easily upon the bowels, free the system of poison caused by faulty elimination and tone up liver.

Be beautiful. Have rosy cheeks, clear eyes and youthful energy that make a success of life. Take Dr. Edwards' Olive Tablets, nightly. Know them by their olive color. 15c, 30c and 60c.

Wife Slayer's Confession Found Soon After He Dies

[Chicago Tribune Press Service.]
MONTREAL, Que., Jan. 20.—A death bed confession was found under the pillow of Arthur Ritchot, who killed his wife five days ago, and who died at Hotel Dieu hospital here under assumed name, having taken Paris green. Admitted for treatment for a infected hand he was registered under

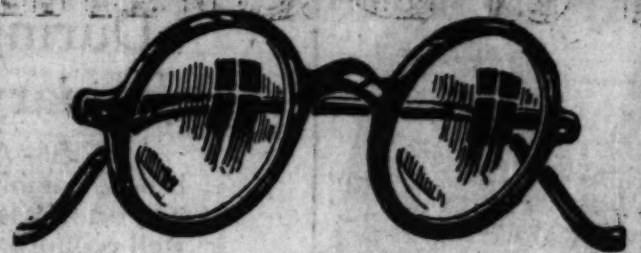

name of Leduc but after his death, a nurse found the following confession written in French on a leaf of his note book: "I am not Leduc. I am Ritchot who killed his wife with blows of an ax." He had been hunted all over Quebec.

ENDS LIFE OF QAS.
George Baker, 63 years old, 2945 Lincoln avenue, was found dead in the kitchen at his home yesterday with all the burners on the gas stove on. Baker had been 48

No. 10 of a Series on 'Metropolitan Chicago

—showing why Metropolitan Chicago has every possibility of becoming the world's foremost metropolitan center—in population as well as in trade importance—and that in a day relatively near. Leading authorities predict fifteen million population for Metropolitan Chicago within a lifetime.

ALMOST TWO BILLION DOLLARS IS DUG FROM THE GROUND IN THIS REGION EVERY YEAR

IN previous advertisements we have told you that Metropolitan Chicago is fortunately situated with reference to its supplies of iron ore and coal, the two most important resources of modern industry.

We have stated that 84 per cent of the iron ore of this country comes from the Lake Superior Region, whence it is brought to Metropolitan Chicago more economically than to any other point of advantageous distribution in the country.

We have shown that the coal available to Metropolitan Chicago equals five times the coal reserves of all Europe.

But iron and coal alone do not begin to tell the complete story of our rich nearby stores of mineral resources. More than one-fourth of the lead and a substantial portion of all the zinc produced in the United States come from within a night's train ride of Chicago. Michigan is one of the nation's leading states in the production of copper. Readily accessible to Metropolitan Chicago are found abundant stores of building stone, clay, gypsum, sand, gravel

and other materials used in building construction. Nearly one-half of all the salt in the United States comes from within a radius of five hundred miles.

Metropolitan Chicago, too, leads as an oil center. By pipe line and tank car, crude oil from great distances is brought here to be refined. Metropolitan Chicago today stands first in the value of its refined petroleum products!

Of the \$4,984,000,000 in the principal mineral products of each state produced in 1925, a total of \$1,911,000,000, or nearly 40 per cent came from the region within a night's train ride of Chicago. [Figures from the United States Bureau of Mines.]

The value of all these mineral stores is made still greater by Chicago's central location, and its unequalled transportation facilities. Industry finds itself ideally situated here.

That is a prime reason for Metropolitan Chicago's unprecedented growth—from 4470 people in 1840 to more than four and one-half million in 89 years! Who can accurately forecast the population of Metropolitan Chicago 25 years hence, or even ten, when the most optimistic forecast for 1928, made only two years previous, was substantially exceeded? Every indication points to the probability that Metropolitan Chicago will become the greatest economic center of the world, in population as well as industrial leadership!

This complete series on Metropolitan Chicago has been bound in booklet form. Address Public Service Company of Northern Illinois, 72 W. Adams St., Chicago, and a copy will be mailed to you without charge.

PUBLIC SERVICE COMPANY OF NORTHERN ILLINOIS

Supplying Electricity and Gas to 6,000 square miles, including the Metropolitan Area into which Chicago is growing.

*Metropolitan Chicago includes the City of Chicago and the territory within 50 to 75 miles of the Chicago City Hall.

CARSON PIRIE SCOTT & CO

These Three Distinctive Modes Essential to Mid-Season Chic

Fashions not related in themselves—going separate ways to smartness to appease the whims of this new season.

Crepe Chiffon Frock—

The fill-in frock indispensable to afternoon wardrobes. Fine pleats ruffle the dyed lace that edges the skirt tiers. Black and cocoa. For women. \$65.

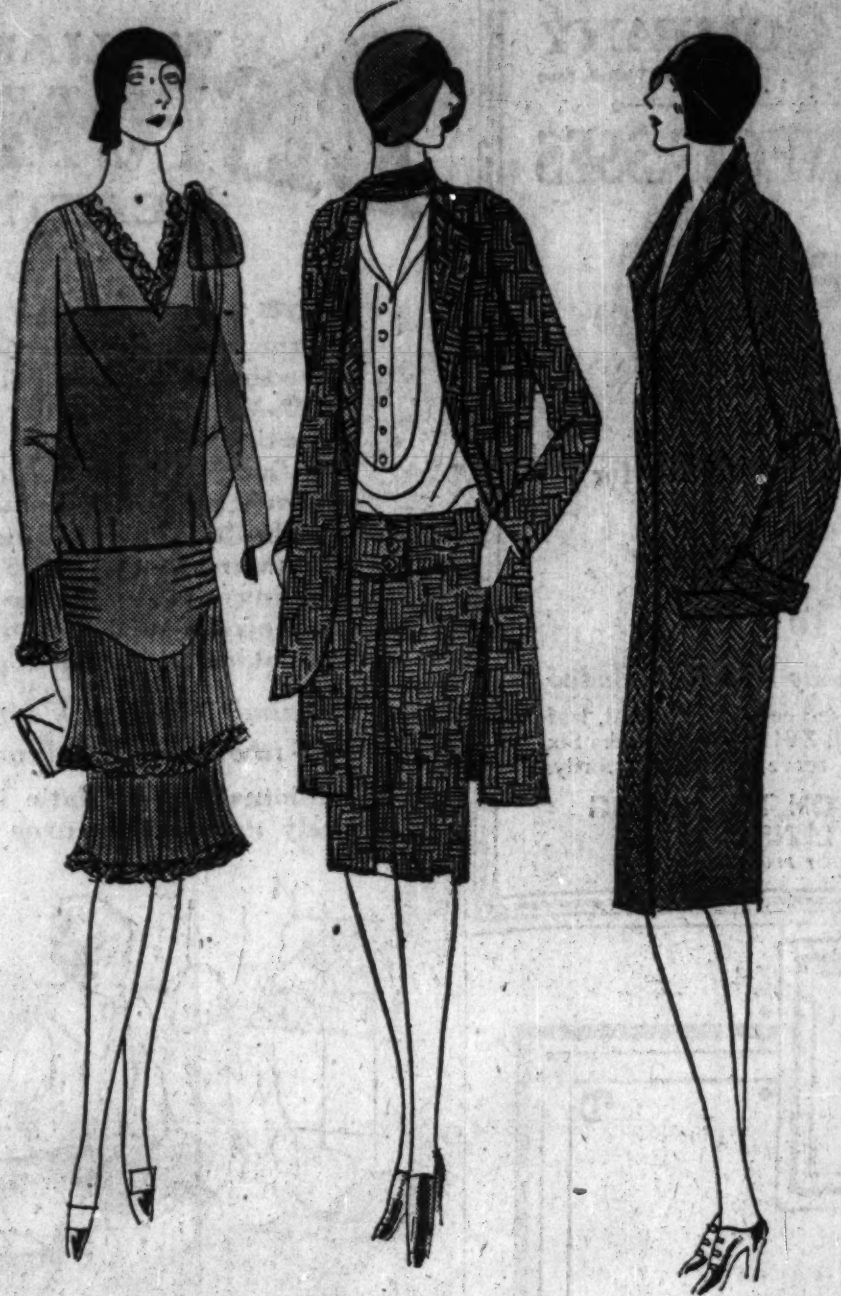

The Tweed Suit—

Three-quarter length coat with scarf collar—blouse of ivory toned satin crepe tucks into the tailored skirt. Tan or gray imported mixture. For women. \$135.

Coat of Murow Cloth—

The very smart herring-bone weave shows through a soft, silky surface of gray, brown or tan. The tailored style, sketched, in brown tones only, is \$125. Trimmed with beaver or kit fox. \$175.

Fourth Floor, North, State.

New Hats of Paris Meme

The fine, flexible, lustrous straw that French women have substituted for felt. It has the sophisticated appeal of felt, and with its newness and novelty creates a new note in hat fashions.

In the group presented here—brims, off the face and close fitting styles. Black, brown to sand and shades of reds are prominent. Main Section—headsizes 22 to 23½. Junior Room—21 to 21½.

\$15 to \$25

Fifth Floor, North, State.

Botany Flannel in a Tailored Robe—\$13.75

In a chic black pattern, in red or blue. The smart notched collar accents the fine tailoring of this distinctive robe—fashioned in the highly favored double-breasted style, of fine quality botany flannel. Specially priced at \$13.75.

Third Floor, North, State.

More Fine Values in Corsettes During the January Sale

At \$7.50—A lustrous broche combination, with rayon brassiere top, is well reinforced. Sketched at the center.

At \$5—A trim girdle of satin and elastic panels. The back dips low and clings to the figure. Sketched right.

At \$5—Broche fashions a dainty girdle for the youthful figure. Bias elastic section at the sides. Sketched left.

Third Floor, East.

Princess Slips of Crepe de Chine

Special in the January Sale at \$3.25

Just the kind to appeal to the woman who delights in a skillful combination of the dainty and the practical—and finds it doubly interesting when it is offered her at such an unusual price. The more tailored style shown has a decorative applique design on double georgette. The other has the desirable slit sides, and is generously trimmed with lace.

Hand-Made Night-Dresses of Nainsook and Batiste, \$1.55

Third Floor, North, State.

The New Woolen Fabrics for Spring

That Become Important With the Vogue For the Ensemble

Pliable, soft-toned fabrics herald the coming days. Smooth, fine surfaced woolens suggest the tailleurs of fine weather; rougher, sturdier weaves prepare to greet the chill breezes of earlier days. Some tweeds and mixtures shot with the subdued tones of blues, greens, browns, tans and grays. These are the fabrics of the smart spring wardrobe; 54 inches wide. \$5.50 yard.

The Smart Wool Coatings Tweed and Homespun Mixtures

Blending tones of greens, browns, tans, lavenders and grays, skillfully woven in splendid rough surfaced tweeds and swaggar homespuns—a wide assortment. 54-inch width, \$6 to \$7.50 yard.

Second Floor, North, State.

Continuing the Semi-Annual Sale of Shoes

With a Group of Smart Suede Slippers
New Styles from a Large Stock Just Received

At \$10.75 Pair

About fifteen hundred pairs—a variety of styles—both black and brown—make up this special group of suede slippers—this sale within a sale. All the smart lasts and designs—opera pumps, T straps, center buckle straps, and one straps—are represented in this unusual selling. For the suede shoe is one which maintains its importance throughout the year, and thus it becomes an unusually fine value at this low price.

Other Prices in This Sale Range from \$7.75 to \$19.75
Every Pair of Shoes Reduced Except Arch-Sustainer Shoes

ENJOY Winter DRIVING

PUT flying fuel IN YOUR TANK!

It isn't cold weather that takes the fun out of winter driving—it's a cold engine! There's fun on the traffic-free highways and health in the invigorating winter air—but there's neither fun nor health in fighting a cold engine that's hard to start and slow to tune up!

Here's the answer!... put flying fuel into your tank—fill up with Sinclair Aircraft Gasoline! The gas of the Airways is great on the Highways... starts cold engines fast... warms them up to summertime performance and keeps them running smoothly, without a sputter or spitter,

no matter how cold the wind blows. This Ace of High Test gasolines is guaranteed to meet Army, Navy, and Bureau of Mines Specifications for Aviation Gasoline, domestic grade. It produces a carburetted mixture that fires readily on the first turning over of the engine. It reduces the use of the choke, eliminates engine balk and gas locks, preventing jerky operation. It decreases the dilution of your motor oils. Remarkable gas... just try it—at the Sinclair Pump with the Aircraft Globe. Enjoy winter driving!

1928 Sa
Cent

BY O.

It takes a long time to get the keys, because they are not the city's property. Anyway, the Commission's hour send-outing day. But approximately gas was distributed to a number of cars established.

"Total sales were 49,247.52 gallons, a decrease of 7.61 per cent from 1929," an annual report said.

"Sales for each volume than the month of marked increase for commercial lowered the additional and effective on April for home heating, a decrease of 1.33 per cent."

Evidence

"An evidence business is the customers served of gas mains added to the 1929 mains, 525,163 meters in service, 5,780 registered, 31, of whom 31 Chicago."

Earnings

"The earnings of the company printed last were Hope of an Chicago traction by the Chicago City the Chicago City collateral port. The trust the Chicago City and Southern the Southern City for the last two of their bonds, and the Railway has seen for the benefit of

Expense

"Such disbursements to \$11,000,000, a decrease of \$2,479,023 from the trust last year there now is a though payments would produce \$1,000,000.

THIS IS WHY
PEOPLES GAS
IS THANKFUL1928 Sales 7.67 Per
Cent Over 1927.

BY O. A. MATHER.

It takes a lot of gas to cook Thanksgiving turkey for Chicago. And last year there probably were more turkeys, because of prosperity, and there also were more Chicagoans, because the city is growing.

Anyway, the Peoples Gas Light and Coke company hung up a new one hour send-out record last Thanksgiving day. Between noon and 1 o'clock approximately 15,118 cubic feet of gas were distributed, which was nearly a million cubic feet above the record established a year before.

"Total sales of gas during 1928 were 46,847,550 cubic feet, an increase of 7.67 per cent over 1927," President Samuel Insull says in his annual report, issued last night.

Sales for each month were greater in volume than during the corresponding month of any previous year. A marked increase in the sale of gas for commercial and industrial uses followed the adoption of the new optional and wholesale rates made effective on April 1. The use of gas for home heating continued to increase at a satisfactory rate.

Evidence of Growth.

"An evidence of the growth of the business is the increasing number of customers served. Ninety-seven miles of gas mains and 10,994 services were added to the system during the year. On Dec. 31 there were 5,431 miles of mains, 536,143 services, and 905,372 meters in service. The company had 8,750 registered stockholders on Dec. 31, of whom 3,571 were residents of Chicago."

The earnings and financial results of the company for last year were printed last week.

Hope of an early settlement of the Chicago traction question is expressed by Bernard E. Sunny, chairman of the Chicago City and Connecting Railway collateral trust, in his annual report. The trust owns the stock of the Chicago City Railway, the Calumet and South Chicago Railway, and the Southern Street Railway.

The trust has received no dividends for the last two years as the result of the car lines' defaulting payment on their bonds, although the Chicago City Railway has set aside the equivalent for the benefit of the stockholders.

Expenses of Trust.

Such dividends would normally amount to \$1,239,514 a year, or a total of \$2,479,028 now due. Expenses of the trust last year were \$1,085,545 and there now is a deficit of \$1,467,119, although payment of accrued dividends would produce a surplus exceeding \$1,000,000.

"It is, of course, expected that on a settlement of the traction question and a reorganization of the companies this money will be paid into our treasury," Mr. Sunny says. "There is an important undivided surplus in the

Factory Pace Grows Faster;
Auto, Copper Plants Features

(Chicago Tribune Press Service.)

New York, Jan. 20.—Business and industry throughout the country appears to be holding its early January pace in good fashion. One of the features last week was the sharp step up in factory operations in almost every section of the country and quite naturally this development had its own influence on a multitude of lines.

Rattles of operation in the automotive industry, in iron and steel, and in copper were stepped up gradually during the last week and present indications point to a marked inquiry for these products, not only in the domestic markets but in the foreign markets as well. Stated generally, it may be said that the state of business is entirely satisfactory, that operations in basic industries are above those of last year, that collections are good, that few complaints are heard as to the state of trade.

Makes Good Start.

Reports received by telegraph by the New York Times last week were mainly to the bullish side. January appears to have made a good start in practically all sections of the country and in some sections, particularly the eastern ones, the rate of business activity is well ahead of the same time last year.

One of the developments of last week was the stimulation of New England business. Philadelphia reports were generally above those of the same time last year. The advance in farm product prices last week in most of the agricultural sections has had the effect of bringing about a better business situation in the middle and western states. In particular, the note in the Kansas City dispatch that the strength of these commodities has proved a stimulation to business.

Look Ahead.

All eyes in the commercial and financial situation are on the spring. Wholesale trade has shown more than fair progress and in such important lines as the automotive industry and the iron and steel industry, there are

underlying companies in which the participating shares have a large equity. The surface lines properties in which the trust is interested are in first class condition, are operating efficiently and satisfactorily and the showing as to earnings for 1928 is as favorable as for the previous year.

The Chicago Surface Lines report for December, which was published last week, shows a net income of \$405,531 after expenses, renewals, taxes joint account expenses, 5 per cent interest on purchase price, etc., against \$439,051 in November and \$669,229 in December, 1927.

CLOTHING PRICE
CUTS HIT TRADE
OF CHICAGO CO.

The unusual clothing price appeal to consumers has had an adverse effect in the year just passed, asserts Alfred Decker & Company, clothing manufacturers. Lower earnings also are due in part to the expenditure of large sums, as during last year 478 shares of the preferred stock were bought. The outstanding preferred now amounts to only \$571,700. Profits for last year were \$231,672.10 before federal tax. Surplus is \$1,569,610.20.

no complaints, at the rate which new business is coming in. A good rate of activity appears to be maintained throughout the country.

One of the most active industries which has developed during the last two or three months is that of boots and shoes. Particularly active lines at the moment in addition to those already mentioned are agricultural machinery, automobiles, iron and steel, copper, groceries, deal stocks and wholesale lines in which the commodities are a long while in the process of manufacture. Every indication points to a very active and strong spring trade.

Trend of Stocks.

The expansion last week of \$71,000,000 in the brokers' loans figure and the advance in the bank acceptance rate had small effect on the stock market and prices at the close of the week generally were higher than at the start.

Money continues at an abnormally high price and despite this stiff rate there appears a very active demand for call funds. The trend of stocks during the week was mostly an upward one, with favorite issues gaining very sharply. United States Steel common, usually a very slow issue because of its investment qualities, was the feature last week. Important recapitalization plans are reported under consideration.

The general financial and industrial situation appears a good one, with special attention being paid at the moment to the money situation. Should rates go much higher it will have a direct effect on the stock market and most likely a left handed effect on business as a whole.

It is rather surprising to just what extent the commercial life of the country is now being affected by stock market quotations. The situation is an unusual one and not likely to last for any length of time. Possibly it has been engendered by tremendous upsurges which have taken place in well known stocks.

DUTY ON SUGAR
AGAIN TARGET OF
RIVAL INTERESTS

(Chicago Tribune Press Service.)

Washington, D. C., Jan. 20.—Another controversy over duties on sugar such as has figured prominently in previous tariff revisions is scheduled to develop at tomorrow's hearing of the house ways and means committee. Domestic producers are prepared to ask an increase in duty to three cents per pound on raw sugar. The present rate is 2.2 cents, Cuba enjoying a 20 per cent preferential below this rate.

The producers also will ask that importations of duty free sugar from the Philippines be limited to 500,000 tons a year, which is slightly less than the annual rate of shipments from the islands during the last few years. A greater differential between the duties on raw and refined sugar will be sought, due to the fact that refineries have been springing up in Cuba in recent years.

FAVORS VARIED
STOCKS VS. FEW
AS INVESTMENTCritic Discusses New
Form of Trust.

BY SCRUTATOR.

So many investment trusts have grown up in the United States that some of them are abandoning a feature which at first glance would seem to be their strongest.

Only a few days ago it was announced that a 100 million corporation classified as an investment trust was being formed to deal in oil stocks. There is already in existence another which limits its purchases of securities to one group of companies in the same industry.

A Chicagoan who spends a great deal of his time investigating investment matters views this tendency with some distrust.

"All business is a better bet for the future than any one industry," he said. "The best feature of an investment trust is that it can make the widest possible spread for the dollars of its stockholders."

Urges Broader Basis.

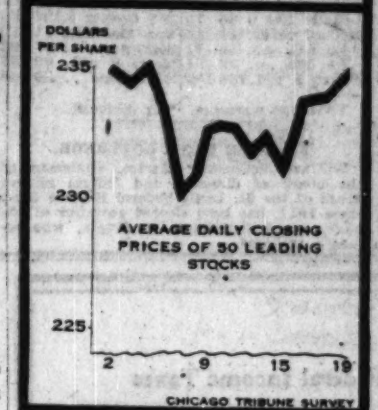

"It is difficult to see where a trust operating in one industry alone has marked advantages over large holding companies. It is a valid argument that the management can have better information on the production of one commodity than many, but it seems to me it is outweighed. Certainly such a company would be more speculative."

In America in the last eight years there have been formed twice as many investment trusts as there are in England, where they have been in successful operation for fifty years or more. It may be noted that the English trusts have carried their diversification programs to a seemingly extreme point. The London Economist reports that twenty-five such organizations announcing their investments showed that 5.2 per cent of their funds were in the securities of other investment trusts.

Extreme Difficulty.

Stocks of most American industries from the beginning of 1918 to Jan. 1, 1928, advanced. But not all. Dwight C. Rose, in his new book on Investment Management, quotes statistics to show that in this period leather and shoe, coal, textile, sugar and shipping stocks actually lost ground. An investment trust which dealt only in shipping, for instance, would have had extreme difficulty in making a showing, as a decline of 78 per cent in the stocks of all shipping companies was indicated by the figures.

Management is the dominant factor in every business. How hard it is even for experts to invest safely and still obtain a good rate of return is shown by other figures from Mr. Rose. He states that twenty-five large fire

Stock Prices
Continue High
During January

insurance companies, investing funds over a period of twenty-two years, obtained an average return of 4.70 per cent. The best company's return was 6.27 and the poorest one's, 3.23 per cent.

Returns Held Down.

Returns were probably held down considerably by the restrictions placed on the type of investments that could be made by these insurance companies. An analysis made a short time ago of twenty-one London investment trusts showed their average long term dividend return was 7.72 per cent. Apparently this is an argument for wider diversification, both for safety and for yield.

Attendance at Furniture
Show May Exceed 5,000

With 4,702 buyers registered at the furniture style show in the American Furniture Mart at the end of the second week of the market period, furniture men entered the third week with confidence that more than 5,000 dealers will have attended the exhibition. The sales recorded during the second week of the exhibition continued satisfactory, manufacturers agreed.

Radio Shares Lead Chicago
Stocks as Trading Expands

BY GEORGE HAMMOND.

Radio and automobile shares led the Chicago stock market to higher ground last week in one of the most active periods in the history of the exchange.

Total sales for the week were 1,624,000 shares compared with 1,431,000 in the preceding week and 383,000 in the same period of last year. Total sales thus far in 1929 came to 4,110,000, against 1,106,000 shares a year ago.

The fifty most active stocks for the week ended Saturday were enhanced \$41,978,243 in value to a total of \$666,940,160, compared with \$634,861,897 on Jan. 12, a gain of more than 5 per cent. Sixteen of the week's most active issues were listed and traded in a year ago and these stocks had a market value of \$254,075,571, against \$148,214,099, according to a compilation of Lutz & Co. This is an increase of \$107,861,472, or 72.7 per cent.

Biggest Gains.

The biggest gains were centered in the radio list with United States Radio and Television leading on a climb of 45 1/2 points. Westark Radio Stores, listed a few weeks ago, finished the week 19 1/2 higher, based on reports of expansion plans and a merger with a radio producer. Grigsby-Grunow was up 6 1/2, although the stock sold ex-rights in the last two days. Utah advanced 5 1/2 and Zenth gained 5 points in expectation of a favorable announcement to be made this week.

Nobilt-Sparks gained 3 1/2. G. G. Nobilt, president, stated that sales from Jan. 1 to Jan. 16 were twice as large as the entire sales of January last year.

Nachman Spring-filled was a feature of the automotive list with a 12 point mark-up based on reports of good earnings and expectations of increased sales this year of automobile cushion springs. Muncie Gear "B," a new company, gained 7 1/2 and Inland Wire and Steel was up 5 points on renewed reports of merger negotiations with Anaconda Copper. Acme Steel also finished 5 points higher.

Ryan Car Was Feature.

Ryan Car was a feature of the industrial group, gaining 5 1/2 over the week. The rise was attributed to the general strength in the railroad equipment group based on merger gossip and reports of improved business resulting from a more liberal policy on the part of carriers in ordering new cars for 1929 delivery.

Ryan Car was organized in the winter of 1924 to succeed a predecessor company established in 1906. It manufactures and repairs freight cars and has a capacity for handling 10,000 tons of forgings in addition in its plant occupying 30 acres at Hagevich. It has no funded debt and in addition to an outstanding issue of \$500,000 cumulative 5 per cent preferred stock there is an outstanding issue of 80,000 shares of \$25 par common stock.

The company's largest earnings were made in 1924 when net reached \$2,122,035, equivalent to \$12.53 a share on the common stock.

Commonwealth Edison reported up 9 points in reflection of the spectacular activities of the Inaull Utility Investments issues listed in the middle of the week. Great Lakes Dredge and Dock quietly worked up 30 points, on sales of only 265 shares.

New Issue

\$1,000,000

MAGNET MILLS, Inc.

Secured 6% Ten-Year Sinking Fund Gold Bonds

With Stock Purchase Warrants

Dated January 1, 1929

Due January 1, 1939

Authorized \$1,000,000. To be presently issued \$1,000,000. Principal and semi-annual interest payable January 1 and July 1 at The Foreman Trust and Savings Bank, Chicago, Illinois, without deduction for normal Federal Income Tax and without deduction for State and local taxes. The company agrees to pay interest on the bonds by check or by cash on demand.

The bonds are to be issued in denominations of \$100, \$500 and \$1,000. The bonds are to be issued in full or in part as may be determined by the board of directors of the company at any time and from time to time.

The bonds are to be issued in full or in part as may be determined by the board of directors of the company at any time and from time to time.

Each bond will carry a warrant exercisable at any time, but not detachable until January 1, 1930, except upon redemption of bonds or exercise of rights of purchase, which will entitle the holder to purchase one share of MAGNET MILLS, INC. common stock for each \$100 of bonds, at \$25 a share, the price increasing to a maximum of \$32.50 on or before January 1, 1934, (at which time they expire) as more fully outlined in the President's letter.

The Trust Indenture provides for a semi-annual Sinking Fund applicable to these bonds, beginning in 1930, sufficient to retire over 55% of this present issue before maturity.

THE FOREMAN TRUST AND SAVINGS BANK, Trustee, and JOHN W. BISSELL, Co-Trustee

Mr. C. S. Kincaid, President of the Corporation, summarizes the representations in his accompanying letter as follows:

HISTORY AND BUSINESS: The business of Magnet Mills, Inc., a Delaware corporation of Clayton, Tennessee, was established in 1905, with a capital of \$30,000. In 1908, the control of the business was acquired by the present majority owners, under whose management it has earned a profit in every year and has grown, largely through reinvestment of earnings, to one of the most successful hosiery mills in the South. The present Company has acquired all assets and assumed all liabilities of Magnet Knitting Mills, a Tennessee corporation, which heretofore operated the business. All references herein to the Company refer to the predecessor Tennessee Corporation.

The Company manufactures women's full-fashioned silk and seamless silk and rayon hosiery, and men's half-hose of silk, rayon and cotton. All are of superior quality in their respective grades and sell at medium prices to a large consuming class.

The Company was peculiarly well situated to enter the profitable and growing full-fashioned hosiery industry under the most favorable conditions, having available an ample supply of highly intelligent labor, and an unlimited supply of cheap hydro-electric power. These and other factors have resulted in operating costs substantially lower than those of representative Northern mills, furthermore, the high quality of full-fashioned hosiery produced has created a demand far in excess of present capacity. This department has proved so profitable that the present financing was decided upon to carry out a well-balanced program.

PURPOSE OF ISSUE: The proceeds of this issue will be used to reimburse the Company in part for expenditures made in connection with its full-fashioned hosiery department, and to provide additional equipment and working capital for its

SECURITY AND ASSETS: The balance sheet of the Company, certified by Messrs. Price, Waterhouse & Company, as of October 31, 1928, after giving effect to this financing, shows net tangible assets (fixed assets at cost less depreciation) of approximately \$2,111 per \$1,000 bond. Based on appraisal of fixed assets by the American Appraisal Company, the net tangible assets are conservatively in excess of the bonded indebtedness shown in the Balance Sheet.

These bonds, in the opinion of counsel, will be secured by a direct first mortgage on all of the fixed assets of the Company. The Trust Indenture will contain suitable provisions for protection of holders of this issue, for subjecting after acquired property to the lien of the indenture, and for issuance of additional bonds.

EARNINGS: Over the past twenty-year period the Company has shown a profit in each year. The Company's earnings, available for interest and Federal Taxes, after adjustments, for the four-year period ending December 31, 1928 (last two months estimated) have averaged 4.94 times interest charges on this issue. In no year of this period did the Company fail to earn such charges less than four times. The most conservative of several estimates, as prepared by Messrs. Sanderson & Porter, indicates substantial increases in earnings power during 1929, and further increases during 1930, at the end of which time it is expected the present expansion program will have been completed.

MANAGEMENT: The management which has been responsible for the success of the Company will continue actively to direct affairs.

These bonds are listed on the Chicago Stock Exchange.

These bonds are offered when, as, and if issued and received by us, subject to the approval of Messrs. Mayer, Meyer, Austin & Platt, of Chicago, for the Bankers, as to all matters except titles; and Messrs. Jennings, Sutton & Wright of Knoxville, Tennessee, for the Corporation, who have rendered their opinion as to titles. Audits have been made by Messrs. Price, Waterhouse & Company.

Price 100 and interest, yielding 6%

MONEY HIGHER,
STEEL, FOREIGN
TRADE EXPANDWall Street Recalls
That's Usual.

(Chicago Tribune Press Service.)

New York, Jan. 20.—Last week's renewed advance of Wall Street money rates from the relatively low level reached when the "year-end company disbursements" were crowding into bank deposits, was quite in line with precedent.

It differed from other recent years, however, in that both the low figure of the first downward reaction and the high figure of the subsequent recovery were far above the normal range on such occasions. Whereas last January's call money market, having declined from 5 1/2 per cent to 3 1/2, returned to 5 before the month was over, the present month's rate fell back from 1 1/2 to 1, but rose to 2 per cent last week. No January market since that which accompanied the acute stage of the "deflation crisis" at the beginning of 1921 has presented any such picture of continuing clear money.

Trade Is Cheerful.

If the week's occurrences on the money market were of a character to cause doubt, not to say misgivings, the

(Continued on page 26, column 1.)

On Buying Stocks

WITH the growing appreciation of the desirability of sound common stocks as investments, more people have been buying stocks than ever before. In buying them they have either formed their judgments from a reading of newspapers and financial magazines, or have acted on information or tips given them by friends.

But there is another way to buy stocks. Investment houses like A. G. Becker & Co. underwrite and distribute common stock issues from time to time. These underwritings are preceded by very exhaustive investigations and carefully conducted scientific studies which establish the soundness of the business and its future possibilities and indicate the fair price at which the securities should be sold. The stocks are then distributed by us in all parts of

the country in a way that will establish as broad a market for them as possible. It has always been our endeavor to place these stocks with a large number of people and in small blocks to eliminate, so far as possible, speculative commitments which are likely to be thrown on the market at any time. This initial distribution by no means ends our interest or participation in the securities. We watch the companies carefully and actively continue to direct the attention of investors to the securities in order that there may be the continuing interest in them that goes to make up an orderly market.

When you buy bonds, you naturally rely on the recommendations of an experienced investment house. There is equal reason for buying your common stocks in the same way.

We recommend for investment at the present time the following high grade stocks with which we are identified:

ACME STEEL CO. Common Stock
AUTOSTOP SAFETY RAZOR CO., INC. Convertible Class "A" Stock
CHICAGO PNEUMATIC TOOL CO. Convertible Preference Stock
HAMMERMILL PAPER CO. Common Stock
HART SCHAFFNER & MARX Common Stock
LAWBECK CORP. Stock Units
MONSANTO CHEMICAL WORKS Common Stock
JOHN MORRELL & CO., INC. Common Stock
NEWPORT COMPANY Class "A" Convertible
PARKER PEN COMPANY Common Stock
WIEBOLDT STORES, INC. Common Stock

GRAIN MARKETS' SUDDEN JUMP THRILLS TRADERS

Wheat and Corn Both
Higher for Week.

BY CHARLES MICHAELS.

The grain trade has had a more remarkable revival in the last two weeks than at any other time in five years. It has changed from extreme dullness to marked activity with a more bullish sentiment on the part of local operators, and a broadening in outside speculative interest. Wheat prices have advanced 10c, corn more than 12c and oats 3 1/2c, with net gains for the week on wheat of 2 1/2c; corn, 1 1/2c; oats, 1 1/2c; rye, 1 1/2c. Recession from the top point at the end of the week came from general profit taking.

Assumes Lead.

Corn has assumed the lead of all grains and is regarded as having more merit than wheat, as it is a domestic product, while wheat is a world's affair. The belief exists that corn prices have been too low and the situation the world over warrants the maintenance of May corn around 1 1/2c better.

While the movement in the country has been somewhat restricted by unfavorable weather and roads, primary receipts for the week were a good average and marketing since Nov. 1 aggregates 163,100 bu., against 73,100 bu. in 1927. Stocks are increasing at a fair rate but are below last year's. Farm consumption has increased because of cold weather.

March closed at 88 1/2c; May, 1.02 1/2c; July, 1.02 1/2c.

Prices follow:

	Mar.	May	July
Wheat	88 1/2	90 1/2	92 1/2
Wheat	89 1/2	91 1/2	93 1/2

BEAUTY AND UTILITY

ARE COMBINED

IN THE NEW FORD

WHEN you see the new Ford, you are impressed instantly by its trim, graceful lines and air of sturdy strength. Its very appearance is a reflection of the alert, capable performance of the car. Without being extreme, it has struck a new note in automobile designing.

A particularly interesting feature of the new Ford is the way beauty has been combined with utility. This is found in the length, width and height of the body, the size and shape of the radiator, the position of the gasoline tank in the cowl, the outward flow of the body, the design of the welded steel spoke wheels, the shape and position of the full nicked headlamps, the sweep and curve of the heavy full crown fenders.

Everything has been planned for service

When a thing perfectly fits its uses, it is pleasing to the eye. Every part of the new Ford has been designed and built not only to be attractive, but with a very definite thought of the work it has to do.

Even in the very little things you can see evidence of quality of material, careful workmanship and quiet good taste. The upholstery

is of woolen material, rich and luxurious, yet long-wearing.

Attractive colors add to beauty of the new Ford

Every one of the new Ford body types is available in a choice of several beautiful two-tone color harmonies with attractive striping. This is an unusual feature in a low-price car.

The finish is pyroxylin lacquer, selected for its enduring qualities. It is not affected by heat or cold, is not easily marred or scratched, and polishes to a beautiful luster.

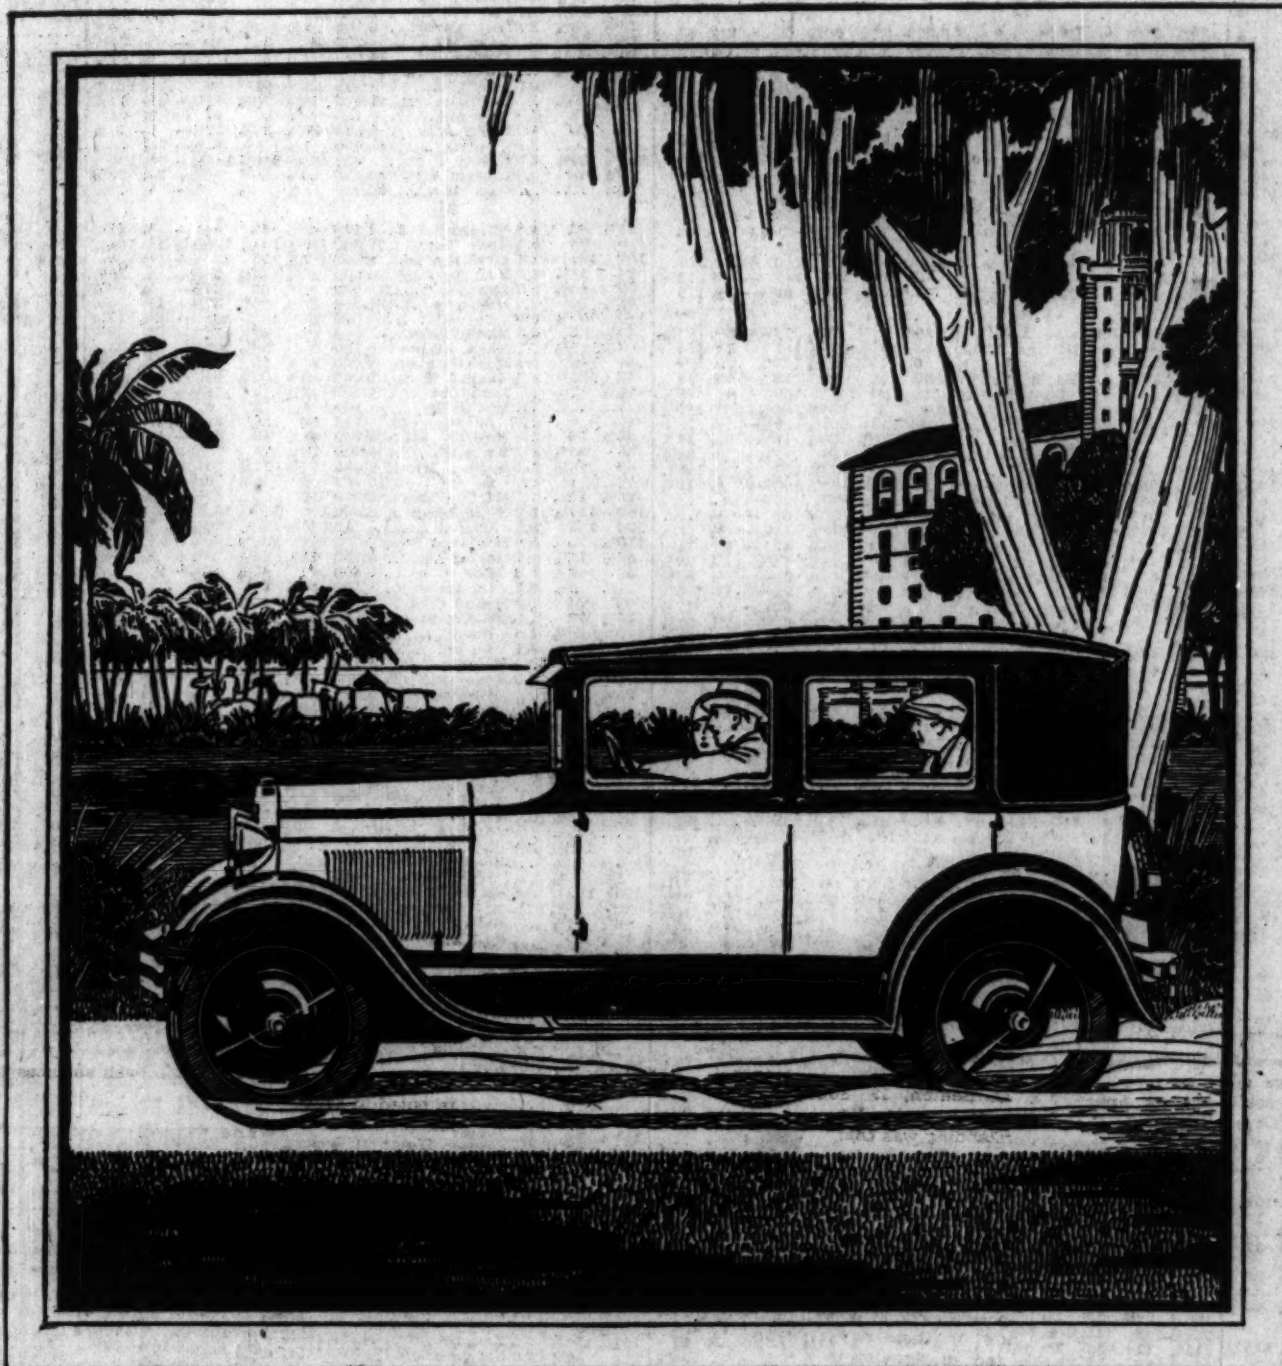

Once a month at least your car should be washed and polished.

The beauty of the Ford is not of the outside only, but extends deep down into every part—even to those hidden parts which you may never see. In the eyes of the engineer and technical man, the mechanical beauty of the new Ford is one of its greatest features.

The practical beauty of a fine machine

There is beauty, for instance, in the fine steel forgings which are used everywhere in the chassis of the new Ford where there is a possibility of wear—in the manner in which electric welding has been developed to give increased strength without increased weight—in the simplicity of the cooling, lubrication, ignition, and fuel systems—in the extensive use of ball and roller bearings—in the simple operation of the fully enclosed six-brake system—in the close limits of accuracy maintained in the manufacture

The new Ford Business Coupe has been especially designed for professional men, executives, salesmen—for all who use an automobile constantly for business use. Handy package space behind seat and unusually large rear deck are welcome features.

The new Ford Sedan is impressively smart yet sturdy and substantial. An unusually comfortable car because of its wide, deeply cushioned seats, generous room between front and rear seats, transverse springs and Houdaille hydraulic shock absorbers. Finished in a choice of beautiful two-tone color harmonies.

of important parts—in the way the engine develops its speed, acceleration and power without sacrificing reliability or economy.

To the man who drives his automobile many thousands of miles every year and who looks to it for continuous service at low cost, this mechanical beauty is of more importance even than beauty of line and finish.

For it is a reflection of simplicity of design, quality of materials and careful workmanship, which are the three fundamental factors in motor car performance.

There is indeed no greater tribute to the value of the new Ford than the simple, homely phrase which you hear so often from Ford owners; experienced garage mechanics and all who know and understand the workings of an automobile—"It is a sweet mechanical job."

FEATURES OF THE NEW FORD CAR

Beautiful low lines

Choice of colors

Quick acceleration

Smoothness at all speeds

55 to 65 miles an hour

Silent, mechanical internal-expanding six-brake system, with all braking surfaces fully enclosed

Four Houdaille shock absorbers

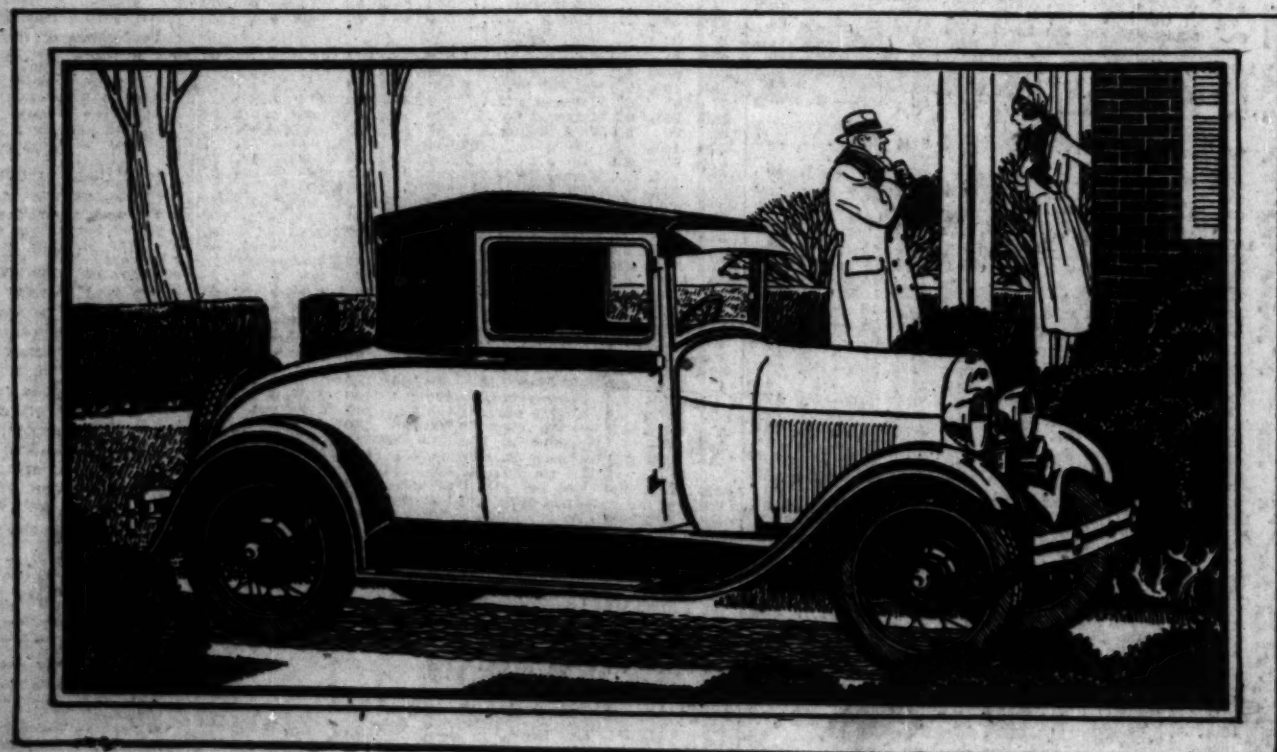

Triplex shatter-proof glass windshield

Alemite pressure lubrication

Economy of operation and up-keep

Reliability and long life

Busy Days Planned for German Envoy Arriving Tomorrow

Due to the indisposition of the German ambassador and his wife, Baron and Baroness Friedrich von Prittwitz und Gaffron, will be set a fast social pace on their arrival on the Capitol Limited at 9 o'clock tomorrow morning from Washington. It is their initial visit in this city, and will last only three days.

In those three days, however, their activities will be legion, as evidenced by the schedule announced yesterday by Dr. Hugo F. Simon, German consul general. The first day's program calls for a visit to the German consulate at 11:30, a call on Mayor Thompson at 12:30, a luncheon at the Drake hotel at 1 o'clock, where Dr. and Mrs. Simon will be hosts; a tour of the north parks at 2:30, placing wreaths on the Lincoln, Schiller, and Goethe monuments; a visit to Marshall Field's at 4; a tea by Holmes Oederdonk at The Tribune Tower at 4:45, and a banquet at the Germania club at 7 o'clock.

On Wednesday Ambassador von Prittwitz will journey to Gary for a trip through the steel mills, returning to attend a luncheon by Melvin Traynor at the Chicago club, visit the Field museum at 3 o'clock, take tea at Ida Noyes hall at the University of Chicago at 4, and finish the day at a dinner given by Dr. and Mrs. Wilhelm Ludwig Baum, 1508 North State parkway, in the evening.

Baroness von Prittwitz will inspect the plant of Swift & Co. while her spouse is at Gary. At 1 o'clock she will attend a luncheon by Mrs. Louis Gessel at the Arts club, later joining the ambassador for the remaining events of the day.

Thursday has been reserved for a visit to Sears, Roebuck & Co., one to the Art Institute, one to McKinlock campus of Northwestern university, and to the Chicago Historical society. The ambassador will have luncheon at the Midway club, the guest of Elias Strawn, while Mrs. Strawn gives a similar affair for his wife at the Casino, and will dine at the Blackstone at a dinner by the Commercial club, while Frau von Prittwitz attends a dinner given by Mrs. Arthur Meeker at her apartment, 1100 Lake Shore drive.

What We Dub Stealing May Simply Be the Collector's Instinct

By CLADY HUNTINGTON BEVANS

We hear a great deal of talk these days about motivation. Strip it of its aspect of patter, and it is quite a simple, common sense bit of practical psychology.

"Why," we say, "why does he do this or that?" or a child whose actions puzzle us. We're looking for the motivation in that everyday cry. What is the reason—what is the motive behind this or that action? It is the most searching and salutary question we could ask, if we'll only follow it up by trying to find the answer.

Why? We say about so many things: tantrums, crossness, impudence, destructiveness, stealing (so called). Here is a letter on the last named subject which is very interesting and which my correspondent hoped might come along immediately, while we were still on the subject. It would have been nice if it could have two blows in the same place to make more impression. But my articles are prepared too far in advance of the date of their appearance.

Here is the letter:

"My dear Mrs. Bevans: I have just read your article in today's paper about the little girl who 'steals.' There are, of course, many reasons, I suppose, any of which this child may have had, to take the money, but so often it is the 'collector's instinct.'"

"I know of three children, one a nephew, the others no relation, who are in every way healthy, wholesome boys and girls who were at times little kleptomaniacs in the eyes of the world. But an excellent schoolmaster suggested that these children be given something to collect. If the child mentioned were to start a collection of coins her desire for money would soon pass, because although they have the collector's instinct it can very seldom stay fixed on the same object."

(Copyright, 1929, By The Chicago Tribune.)

Bright Sayings of the Children

The Tribune will pay \$5 for each child's saying printed. The story told must never have been printed in any magazine or paper. It is not possible to acknowledge or return unavailable contributions. Write on one side of the paper. Address bright sayings to Aunt Sue, The Tribune, Chicago.

I was invited to visit at the home of a friend where there is a 4 year old boy. When I arrived there I presented him with a box of chocolates. More visitors came in and the chocolates were passed around until they disappeared.

When little Charles saw the empty box he came to me and whispered, "Next time bring all day suckers."

M. B.

Clifford, 4 years old, watched his mother give the new baby a bath. He laughed each time the baby cried and worked his little hands and feet. When finally his mother asked what was so funny, he answered: "The baby is steering the wheel and putting on the brakes."

Mrs. K.

Dorsetts

Wouldn't you rather have this **NATURAL Permanent** \$4

Have you ever noticed the decided preference most women have for the Dorsetts? That's because it is the world's most natural permanent; beautiful and lasting. Have your wave without sacrifice is certain.

Haircut and Hairdress Free

Patterns by Clotilde

(Registered U. S. Patent Office.)

WOMAN'S OR MISS' DRESS.

"This is a youthful one piece dress that is popular with the younger set for all day wear. The pressed plaits at either side of the front, topped by patch pockets, and the becoming neckline with turned-over collar with an attached scarf-tie slipped through bound openings, are youthful style details. A tiny checked and plain sheer woolen, wool crepe, crepe satin, velvet, and printed rayon velvet lend themselves well to this pretty model.

The pattern, 2632, comes in sizes 16 and 18 years and 36, 38, 40, and 42 inches bust measure. Size 36 requires 3 1/2 yards of 40 inch material with 1/4 yard of 36 inch contrasting.

2632

How to Order Clotilde Patterns.

Write your name and address plainly on dotted lines, giving number and size of such patterns as you want.

Include 10 cents in stamps or coin [coin preferred; wrap it carefully] for each number, and address your order to Clotilde Patterns, Chicago Tribune, 247 Park Avenue, New York City.

A FRIEND IN NEED

BY SALLY JOY BROWN.

Offers to Lend Watchdog.

"We have just lost our home and everything in it by fire and are living in furnished rooms in a place where we have no yard. We have with us our beloved collie dog, and living as we are is hard on him. Perhaps some family where the man works nights would like to keep our dog as a watch-dog until we can get a suburban home of our own again in the spring."

Society Editor Turns Detective, Finding Society Astronomer BY THALIA

The society department, which is getting, we aver modestly, if not versatile, turned detective for the benefit of his own and the curiosity of the numerous traversers of Michigan avenue who may have wondered about the intriguing domed structure that has been going up atop the new building at the northeast corner of Michigan avenue and Superior street. We must admit that we were not overwhelmingly successful in our mystery solving efforts, but we did discover by dint of diligent research that the edifice, which is a bungalow with an astronomical observatory in connection with it, belongs to Homer C. Chapin, and that he and Mrs. Chapin are to occupy it as soon as it is ready for them.

Now, Mr. Chapin is of a retiring sort. He evidently prefers that his stargazing activities shall not be divulged, and from him we could learn nothing of his interest in the science of the skies. We don't know, either, in case the scope is a 4 or 10 inch one, whether it is a refractor or a reflector, or even whether Mr. Chapin has hitherto been interested in the stars and planets. The building, which is to be on the same corner as the Fine Arts building, which also is under the Chapin estate management, housing shops and studios of an artistic character, will be completed in about a month. The Chapins have recently lived at 180 East Delaware place and don't know when they will move into their lofty and unique dwelling.

If we are bringing to light something which Mr. Chapin would prefer to remain shrouded in obscurity, we must remind him that he could hardly expect to own such an interest arresting edifice almost in the heart of the city without causing comment and arousing people's urge to know what it is all about.

The women who have made reservations to attend the luncheon given under the auspices of the Lake Shore League of Women Voters to-day at the Fortnightly and to hear Frank J. Loesch discourse on the election laws inside Mrs. William Landwehr Baum, who will be accompanied by an interesting German youth, son of the minister of culture and education of Germany, who has been visiting here, Mrs. Augustus A. Carpenter, Mrs. Cyrus Bentley, Mrs. James W. Morrison, Mrs. Wentworth Field, Miss Nettie Bauman, Mrs. George S. Fay, Mrs. Charles W. Dempster, Mrs.

ENGAGED

ELIZABETH H. MORRISON.
(Paul Stone-Baymer Photo.)

Mr. and Mrs. J. C. Morrison of Highland Park announce the engagement of their daughter, Elizabeth Hollingsworth Morrison, to Russell Hamlin Burno, son of Dr. and Mrs. Louis Hamlin Burno of Blue Island, Ill.

George Packard, Mrs. George J. Farnsworth, and Mrs. W. Scott Linn.

Mrs. James L. Houghtaling Jr., Mrs. Hazen Perry, and Mrs. William B. Hales are giving dinner parties at the Casino before the Eli Bates benefit performance of "Macbeth" at the Auditorium on Jan. 22.

Mrs. E. L. Spears (Mary Borden) of whom we have heard little recently, has gone to Switzerland with her daughters and her son, according to her London reporter. Before her departure from London, she served on the committee for a dinner dance for the Royal Northern hospital. Lady Louis Mountbatten, the Hon. Mrs. Roland Greville, Mrs. Ronald Tree, and Sir Philip Sassoon also took part. Mrs. Spears' daughter, Joyce, has just finished her second term at Oxford. "She seems more inclined to serious work than to play, and is

making philosophy and economics her major work at the university," we are told.

Miss Jessie and Miss Catherine Colvin of Lake Forest were seen recently at Dartmouth house, the London residence of the English Speaking union. The Colvin sisters are staying at one of the most distinctive of the smaller West End hotels.

Young Homer Stillwell, Mrs. John Borden's son, and Dawn Miller were the lucky children to draw "black spot" programs at the Junior League's second performance of "Treasure Island" on Saturday morning. They received prizes unearthing from the treasure chest by some of the pirate band.

Col. and Mrs. Thomas R. Gowenlock of the Ambassador East left on Saturday for a trip to Havana, Cuba.

Mr. and Mrs. John R. Thompson Jr., who have been temporarily domiciled at the Ambassador, have now moved into the residence at 1549 Astor street which they purchased recently.

Mrs. Oliver T. Wilson and Miss Virginia Wilson of Lake Forest sailed shortly after midnight on Saturday morning on the S. S. Majestic for Cherbourg and Southampton.

A wedding of great interest to Chicago society will take place today in far off Manila, where Mrs. Helen Farrell Caldwell, daughter of Dr. and Mrs. P. H. J. Farrell of 1222 North State street is to be married to Edgar Gibson, son of Mr. and Mrs. Edgar O. Gibson of Manchester, N. H. The ceremony is to be read at the Episcopal cathedral and probably will be followed by a reception at Fort McKinley. Mr. Gibson is a member of the staff of Gov. H. L. Stimson and will be stationed in the Philippines during the governor's term of office, but he and his bride plan to come to the United States about a year from now.

The arts and interests committee of the Junior League will present its first musical this afternoon at 3:30 o'clock at the Drake hotel. Mrs. Albert Madlener, music chairman, is in charge of the program and the performers will include Mrs. Lidgway Mitchell, Miss Helen Reed, Miss Janet Fairbanks, Miss Elizabeth Poole, Mrs. George S. Haskell and Mrs. Madlener.

Also at 3:30 o'clock, the Friends of Opera will have their annual musical and tea in the ballroom of the Drake.

The wedding of Miss Ethel Madeleine Curley, daughter of Mr. and Mrs. William A. Curley of 414 Diversey parkway, to William Randolph Mackland will be solemnized on Feb. 5 at 11 o'clock in the morning at Our Lady of Mount Carmel church. A reception at the Hotel Belmont will follow the ceremony.

BRIDE

MRS. H. W. JOHNSON.

Mr. and Mrs. A. H. Olson of 1403 Wilona avenue announce the marriage of their daughter, Marjorie, to Hjalmar William Johnson of Chicago. Mr. Johnson was graduated from the University of Illinois and Mrs. Johnson from the University of Chicago.

NEW YORK SOCIETY

New York, Jan. 20.—[Special.]—Mrs. Reginald T. Townsend gave a luncheon yesterday at Pierre's. Her guests included Countess Alfonso P. Villa, Mrs. Reginald B. Lanier, Mrs. William F. Cogswell, Mrs. Alfred Ely, Mrs. Lawrence L. Gillespie, Miss Justine Van Rensselaer Townsend, and Miss Sylvia Millhouse.

Mr. and Mrs. William J. Tully have left the Erie Carillon for their home in Locust Valley.

Mrs. Charles Melbourne Higgins and her son, Louis S. Higgins, of the Plaza sailed on the California for a month's cruise to the West Indies. Mr. and Mrs. Hugh H. McGee and Miss Dorothy McGee have come from Tipton, Roanoke, L. I., to 375 Park avenue.

London String Quartet Makes Its Chicago Debut at Goodman

BY HAZEL MOORE.

That expert organization known as the London String quartet made its first appearance at the season at the Goodman theater yesterday afternoon to the evident satisfaction of a not overabundant audience.

The satisfaction was entirely justified, for of all the visiting string quartets none is so virile, so elastic, or so accurate as this amalgamation of four expert individual instrumentalists into a cohesive musical entity.

Opening their program with the Tschickowsky quartet in D, that of the ever lovely "Andante Cantabile" and the equally lovely "Scherzo," their combined tone was of a loveliness to linger in the memory. As an encore they played a delightful arrangement by Frank Bridges of an old Londonderry air. A group of shorter pieces by Walford Davies and Haydn preceded the Beethoven C major quartet, which unfortunately could not be heard.

Harold Bauer's piano recital at the Studebaker theater was reached in time to hear a good performance of a not too vivid collection of Schubert dances, named on the program as "Ländler and other dances," and a better performance of a better collection, the "Pierrot" at an Exposition "by Mousorgsky." These suits well Mr. Bauer's gifts of attention to detail and delicate accuracy. A full theater approved heartily of the program which included the Schumann "Faschingschwank," the Beethoven sonata in A major and a group by Albeniz, Debussy, Chopin, and Schubert.

Next door at the Playhouse, Rosa Low, a singer new to Chicago, had borrowed Ganna Walska's excellent accompaniment and coast, Walter Goide, and was discovered making an entirely plausible hit of her own.

Miss Low, who hails from the land of Queen Marie, employed a group of Roumanian folk songs as her bit of nationalism. They and she proved charming. But of more interest in displaying her own good voice were the songs of Strauss, particularly the "Serenade" and an encore by Mahler. In these Miss Low showed herself both an excellent singer and a personality. Both she and her voice have that extra beat or flash that lifts a singer above the ordinary. Miss Low's voice is a warm mezzo-soprano with a brilliant top and not quite a contralto low voice. An interesting singer and an interesting program.

WASHINGTON SOCIETY

Washington, D. C., Jan. 20.—[Special.]—President and Mrs. Coolidge had as house guests Mr. and Mrs. William M. Butler and Mr. and Mrs. Frank W. Stearns, all of Massachusetts, who were here for the dinner Friday evening given by the hosts to the President-elect and Mrs. Hoover.

The Vice President and Mrs. Dawes gave a luncheon today in honor of the chief justice and Mrs. William Howard Taft.

Vice President and Mrs. Dawes were given a dinner last evening by Maj. Gen. and Mrs. Jadin who had a distinguished company of army people to meet them. The congressional club sent out invitations yesterday for Thursday evening, Jan. 21, in honor of the Vice President and Mrs. Dawes.

The secretary of state and Mrs. Kellogg gave a dinner last evening in honor of the Japanese ambassador and Mrs. Deluchi and among the other guests were the secretary of the interior Roy O. West, the secretary of commerce and Mrs. Whiting, and Mrs. Robert Clark, niece and house guest of Mrs. Kellogg.

The assistant secretary of commerce for aviation and Mrs. William P. MacCracken returned this evening from a week's visit in Florida. Representative elect Ruth Hanna McCormick gave a supper tonight.

Why Try to Look Like Your Daughter? There's No Point to It

You hear those compliments so comforting to mothers of well launched daughters about the difficulty of determining which is mamma and which the child, but we fear, in one case at least, that mamma is apt to take it all too seriously.

This particular mamma appeared at a little function she was giving in her own home with her debutante daughter's frock on. And if you don't mind a catty observation, the function turned out to be nothing more than a forced tribute to mamma's ability to wear her daughter's dress, and to copy the jeune fille's coiffure.

The rather silly matron had gone on a diet and lost twelve pounds. She got into the dress, all right. But it wasn't her dress and it didn't look it, either. And the school boy haircut was awful on her. She represents, in an exaggerated way, a hybrid growth peculiar to our day. She is later to a number of women who, in the pursuit of the quite legitimate business of looking young, feel they must not stop this side of infancy.

The distressing part of the business is that no one is fooled—much. With a grown daughter about you can't fool all of the people all of the time. Without a daughter, age just does something to face and figure that sets it apart and of another era from that of twenty years its junior.

Understand, I'm not protesting against women of middle age or near it using legitimate means to keep their bodies trained down and their heads smartly coiffed and their complexions as neatly fine as is possible. But you do grow weary of hearing women mourn over a wrinkle and of watching them try to imitate the youngster's bright rouges and gay lips and exposed knees. It's silly.

There's another kind of beauty awaiting the sound body and the well groomed look of mature years. And to her it is infinitely more becoming than any imitation of the fresh young skinned miss with her sapling lines of body.

In matters of powders and rouges, the older woman must make adjustment to the changing tenor of her coloring. In dress shades, if the same are compromised on, she can make a much prettier woman of herself by recognizing the fact that 18 and 40 cast quite different reflections in a mirror.

Wooddale Church, Built by Its Pastor, Is Dedicated

The Wooddale Evangelical Community church, which its pastor, the Rev. M. Gronewald, virtually has built himself in the last three months, was dedicated yesterday morning. A. J. Ryan, presiding elder of the Chicago district; W. B. Rilling, pastor of the Villa Park Evangelical church; George Fink and Walter C. Nielsen, who, with the Rev. Gronewald, were on the building committee, all took part in the dedication. The church at Wooddale is the result of efforts of the Sunday school, which was started eight years ago by Mrs. George E. Taylor and met in the Taylor home. Three months ago the Rev. Gronewald found himself pastor of a newly organized church with no building. He set about raising a fund and with the necessary materials and a set of carpenter tools built almost the entire church by himself.

Baptists Meet Today

This morning at 10:30 o'clock at the Immanuel Baptist church, 2320 South Michigan avenue, the Chicago Baptist ministers' conference will discuss the "Chicago Baptist Opportunities for Training Young People for Leadership."

WINNIE WINKLE, THE BREADWINNER: To Be Continued

HAROLD TEEN—O! HOW HE HATES JELLY BEANS

Tribune Cook Book

BY JANE EDDINGTON.

Meatless Sandwiches.

Having just received a letter asking me to give some recipes for meatless sandwiches, I wondered which way to turn. Cheese and sweet things are usually a main reliance for meatless sandwiches, and I know many ways of using bacon, which some people seem to class with eggs as not meat, though both are. And I would say why not try plain bread and butter sandwiches? Many of the quick breads, like Graham rolls, sweet muffins, brown bread, are delicious with butter alone, or butter and some marmalade, or use cream cheese and marmalade, which are almost as simple as the butter. Have the bread fine enough and it does not matter much what you put in for a filling. The filling can be slight, while the poorer the bread the more filling is required to make it go.

But here are some fillings we helped to exploit a dozen years back: Potato filling—One large boiled potato, two tablespoons olive oil, one egg yolk, two tablespoons vinegar, salt, paprika, and one tablespoon of onion juice or grated onion. Press the potato through a sieve or ricer while it is hot. Add the other ingredients, mix well, and cool, serve with buttered rye bread cut thin and with a lettuce leaf.

Cheese spread or sandwich filling—One pound of soft yellow cheese, two or three beaten eggs, one-half cup of cream, salt and pepper. Mix the cream and the beaten eggs and drop

into the mixture the cheese cut in small pieces. Put over a small fire and stir constantly until the cheese melts, being careful to get a uniform texture and not to overcook.

Take off the fire and add salt and pepper to taste and add a tiny bit of red pepper or paprika to taste. Pour into a bowl or jar and cool, when it should have the consistency of soft butter. If it should curdle in the cooking sieve it, and you can do that anyway to make it extra smooth. This will keep in a cool place for a week or ten days. It is more palatable and more economical for sandwiches than plain sliced cheese.

A great many people like a mayonnaise dressing on bread and butter and many a combination of leftover vegetables may be chopped fine and mixed with a thick mayonnaise for a sandwich filling with a lettuce leaf. Try best or kidney beans in the latter case with a bit of onion.

Margaret Sanger Has Flu; Dr. Yarros Takes Her Place

Dr. Rachelle S. Yarros, medical adviser to the Illinois Birth Control league, spoke yesterday before the Chicago Forum in the Adelphi theater. She took the place of Mrs. Margaret Sanger, who was unable to speak because of an attack of influenza. Limitation of the number of children in a family, she said, often is imperative for purely medical reasons, as in the case of consumptive mothers.

FARM AND GARDEN BY FRANK RIDGWAY

It hasn't been long since men with hoes hung up their tools and closed the garden gate for the season, but here comes the seed catalogues and the advanced literature on gardening. Of course, gardening is several thousand years old, but there is a lot yet to be learned about it. So many men, women, and children start into it as amateurs every year there seems to be a big demand for information about growing flowers and vegetables. I don't know why it is, but it seems that city people who treat gardening purely as a side line have to have their memories jogged up a little as the seasons come and go. If they depended on their own memories for all the little things that need to be done each month there would be a lot of unfinished business at the end of the season.

It is a simple thing to mention, but it is true that many have not checked over their cold frame mashes and not checked to see if they are in shape for the first work of gardening in the spring. Friendly reminders coming from the thoughtful gardeners of the national garden bureau include such advice as these:

Look over the hoes and other tools, and if the blades are rusty oil

them. It's a light season in the carpenter and wood working shops. Have them turn out a supply of dahlias stakes or bean poles.

And here's a good one: Better go over all the bulbs and tubers in storage and see what condition they are in. If dahlias seem to be drying up, give them a light sprinkling to restore plumpness. It must be done cautiously.

Then this one, "Get in a liberal supply of tobacco dust and spread it over the crowns of delphiniums to check the 'blacks'." This disease is now known to be caused by a tiny insect. It winters in the crowns but doesn't like tobacco.

EMBARRASSING MOMENTS

The Tribune will pay \$1 for every letter published on "The Most Embarrassing Moment of My Life." Address: Embarrassing Moments, Chicago Tribune. Write on one side of the paper. No manuscript returned.

Approach.

My most embarrassing moment occurred one day when my boy friend was having dinner at my home. While we were dining my brother Billie said, "You ought to have seen Mr. Nader when he called on Ann the other night. He looked fine sitting there alongside her with his arm—"

"Billie!" I cried, and I could feel my face flaming.

"Well, he did," kept on Billie, "he had his arm—"

"Billie!" screamed my mother. All the while I could feel the color in my face coming and going.

Billie persisted. "I was just—"

"Billie!" cried my father sternly, "leave the room." And Billie left the room crying, "I was only going to tell you that he had his arm suit on."

AMUSEMENTS.

Have you all of your own teeth?

Unless you take preventive measures now, the day is coming when you may know, to your sorrow, that the true meaning of the phrase "artificial denture" is often the extravagant price of self-neglect—false teeth. Here's the reason and the way to help safe-guard health against the coming of this day.

Teeth are only as healthy as the gums. And gums, undernourished and under-exercised, soon surrender to dread diseases that ravage health and often destroy teeth. To prevent this, avail yourself of the best care that modern dentistry offers. Place yourself in the hands of your dentist at least twice a year. And brush your gums when you brush your teeth, every morning and night.

But for this purpose—use Forhan's for the Gums... the dentifrice designed to help firm gums and keep them sound, thus protecting them from the attack of disease.

Use Forhan's regularly. You'll be delighted with the way it makes your gums look and feel. In addition, you'll notice that it effectively and safely cleans teeth and helps to protect them from decay. Get a tube of Forhan's—today!

Forhan's for the gums

* 4 out of 5 people after forty and thousands younger pay the extravagant price of neglect

Police Seize 2,694 in Raids on Night Life Resorts—Four Killed When Train Hits Auto in Calumet City

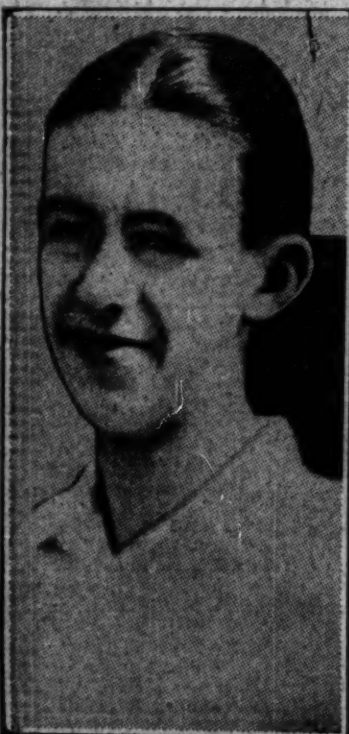

AUTOMOBILE IN WHICH FOUR WERE KILLED WHEN TRAIN HIT CAR. Wreck of coupe in which two girls and their escorts lost their lives at 154th street in Calumet City when Pennsylvania railroad train demolished the vehicle.
(Story on page 3.)

SOME OF THE HUNDREDS WHO WERE ROUNDED UP IN LAST NIGHT'S RAIDS. Group of prisoners at the detective bureau. They were picked up at theaters in the loop, cabarets and other public places throughout the city.
(Story on page 1.)

POLITICIANS ON HAND AS RAIDS ARE MADE. State Senator Adolph J. Marks (left), Republican leader, and Ike Roderick, bondsman and Democratic ward club secretary, both of 1st ward, show interest in proceedings at detective bureau.
(Story on page 1.)

KILLED WHEN TRAIN CRASHED INTO AUTO-MOBILE. Carl Wright and Grace Walker, two of the victims at 154th street Pennsylvania railroad crossing.
(Story on page 3.)

NEGROES WHO CONFESS BANK ROBBERY IDENTIFIED AS PARTICIPANTS IN MANY OTHER CRIMES. Left to right: Leonard Brown, Melvin Jenkins, Leonard Shadow, and Harry Williams, alias Fisher. Witnesses yesterday identified them as having taken part in twenty-five holdups, one of which resulted in murder of theater manager.
(Story on page 1.)

ITALY MAKES OPERA MANAGER A CHEVALIER. Herbert M. Johnson, manager Chicago Civic Opera company, receiving insignia of order of Crown of Italy from Dr. Giuseppe Castruccio, consul general of Italy.
(Story on page 3.)

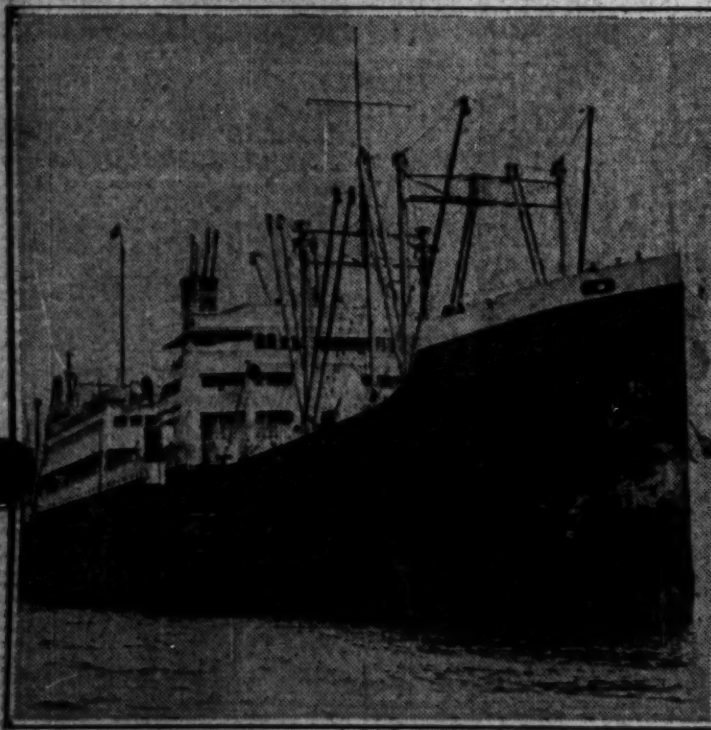

SOME OF THE WEAPONS SEIZED IN LAST NIGHT'S POLICE RAIDS.—Left to right: Lieut. William Cusack, Deputy Commissioner of Police John Stege, and Chief of Detectives John Egan looking over small arsenal taken with prisoners.
(Story on page 1.)

HEADS GIRL SCOUTS. Mrs. William Hoffman of Barrington, R. I., elected president.
(Associated Press Photo.)

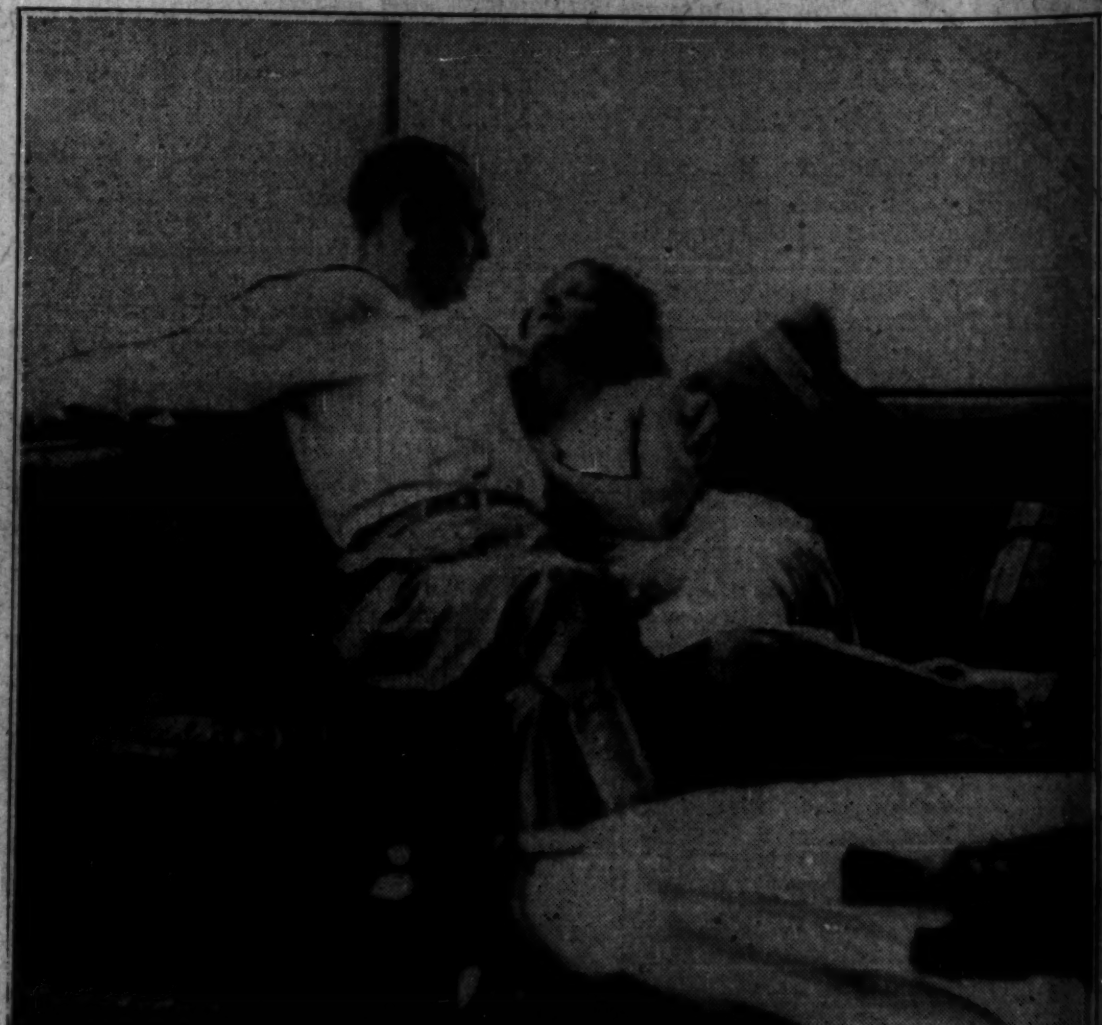

FASHION SHOW REHEARSAL GIVES STYLE HINTS. Miss Isabelle Dale (left) wearing an evening ensemble, and Miss Lillian Graf in formal ensemble of green.
(Story on page 31.)

PASSENGERS TAKEN FROM STRANDED LINER. President Garfield, which struck Matanilla reef off Bahama Islands, and is fast aground.
(Story on page 5.)

SOCIETY MATRON AND PARTNER GIVE EXHIBITION OF FANCY SKATING. Donald B. Douglas, in charge of the carnival of the Lake Forest Winter club, and Mrs. Philip Armour going through their evolutions on the ice.
(Story on page 31.)

DANCER AND MILLIONAIRE ON CRUISE THAT LED TO \$250,000 SUIT. Conkey W. Whitehead and Miss Frances Porter as they appeared during trip to Havana which is the basis of damage suit filed in Atlanta, Ga., Superior court.
(Story on page 17.)
